College of Journalism and Communications

UNIVERSITY of FLORIDA

MMC6936 - INBOUND STRATEGY

FALL 2019

3 CREDIT HOURS

INSTRUCTOR

Your name: Guillaume Delloue

Your email: gdelloue@ufl.edu

Your phone number: 603-953-3169

Contact

There will be a FAQ discussion forum for general questions within Canvas.

Should a question be personal or if it requires greater detail than the FAQ forum, please email gdelloue@ufl.edu. Please ensure the subject line reads "YOUR LAST NAME | TOPIC OF QUESTION." If it's an emergency, call 603-953-3169 and leave a voicemail.

Office Hours

I will be available for office hours on Thursdays between 4:00 and 5:00 PM EST or by appointment. Note that I will be unavailable on Thursday September 5th and 19th for an event and a vacation respectively but can be reached by appointment or via email.

Instructor Bio

Guillaume Delloue is a senior consultant at HubSpot, where he helps organizations of all sizes grow better through technology and the inbound methodology. Prior to joining he led marketing teams at two software startups in Boston, MA. Although he's passionate about all things digital marketing, his specialties include SEO, content marketing and branding. He has also taught digital marketing through the Startup Institute as well as contributed to a number of lessons and certifications for HubSpot Academy (e.g. the Marketing Software Certification, Content Marketing Certification etc.)

Follow him on Twitter @willthefrench and connect with him on LinkedIn at

<https://www.linkedin.com/in/gdelloue/>

COURSE WEBSITE AND LOGIN

Your course is in Canvas (UF e-Learning). Go to <http://elearning.ufl.edu/>. Click the orange "Log in to e-Learning" button. Login with your GatorLink account. Your course may appear on your

Dashboard. If it is not on the dashboard, the course will be in the Courses menu on the left navigation. Click on “All Courses” on this menu. After clicking “All Courses”, you have the option to put the course on your dashboard by clicking on the star to the left of the course’s name.

Contact UF Helpdesk <http://helpdesk.ufl.edu/> (352) 392-HELP (4357) if you have any trouble with accessing your course.

Zoom

This course will rely heavily on Zoom.

Lectures will be recorded through Zoom.

The live lecture for week 12 will happen through Zoom as well.

If you schedule an office hour, those will be held on Zoom, too.

Zoom. Learn it. Love it.

Here’s the link to [getting started with Zoom and downloading the desktop app.](#)

Slack

This course will have a slack channel – this way you can collaborate easier with you peers on the final project.

Here’s the link to [getting started with Slack and downloading the app.](#)

COURSE LAYOUT

Course Overview

You can think of this course as having two parts. The first half of the course will give you a holistic picture of how inbound helps businesses grow. It will synthesize all of the individual strategies you have learned previously: search and display advertising, lead generation, digital copywriting, social media, to provide a framework for attracting, converting and engaging with leads for a business or brand.

The second half of the course will center on launching a live campaign for a real business, [DexMat](#). You will learn about their mission, personas, business model and more. Using that information, you work in two teams to support the launch of their inbound marketing campaign. During the second half of the course, you will continue to learn about the inbound methodology, following the journey of a lead as they are nurtured towards becoming a customer or client.

Each Week

For each week of the course (minus the two live lectures in Week 8 and 16), you will be assigned:

1. [A lecture to watch](#). This lecture will introduce a foundational concept of an inbound strategy. You will find that each week follows the why, how, what framework. If you are unfamiliar, it’s worth watching Simon Sinek’s [overview](#).
 - Lecture One of the week will cover the “Why”, or value proposition of an idea or topic.

- Lecture Two of the week will cover the “How”, or the best practices of putting the idea into action.
 - Some weeks, there will be a third lecture that focuses on the “What.” This video will show the application of the topic or idea in the real world. Other weeks, the “What” function will be covered by outside viewing, the discussion question and assignment.
2. Required readings/viewings. These resources will provide context to the lecture. For example, they might provide real-world examples, additional depth, or a case study. It will be difficult to receive full credit on the discussion questions without consuming the required resources
 3. A discussion question: Since this is an online course, discussion questions are an essential part of creating a collaborative working environment. Consider discussion questions your participation grade. Each week will have a discussion question that asks students to explore the foundational concept from the lecture.
 4. An assignment: Most weeks will also have an assignment that will help students explore how the week’s topic is applied in practice.

DESCRIPTION

The world has dramatically changed as 3.4 billion (as of 2016) people have come online. We have changed the way we live, the way we work, and the way we buy.

This observation may sound trite and unoriginal, but businesses everywhere have refused or been unable to adapt to this reality.

Traditionally, businesses have gone to market with an outbound, or interruptive strategy. This marketing and sales approach was built on:

- Spending large amounts of money to reach potential buyers through advertising;
- Controlling the distribution and supply of goods;
- And tipping the balance of power towards the seller and withholding information from the buyer.

Outbound methods are becoming increasingly less effective and more expensive to implement. The mantra for conducting business used to be buyer beware. Now it's seller beware.

Inbound marketing and sales are about matching the way you market and sell to the way people currently live, work, and buy. Inbound is:

- More about the width of your brain than the width of your wallet;
- Controlling demand, not supply;
- And understanding, empowering, and educating your prospective buyers.

This course will empower you to create an effective inbound strategy to attract, engage, and delight leads for a business, brand, or organization.

LEARNING OBJECTIVES

By the end of the semester, students will be able to:

- Create and implement an inbound strategy to help a brand attract, engage, and delight new leads;
- Design a framework, using technology, for how marketing and sales can align to drive revenue;
- Create a long-term inbound marketing strategy and launch a short-term campaign in support of it.
- Develop, create, promote, repurpose, and measure content marketing efforts to directly support revenue goals.

Specifically, by the end of the semester, you should be able to answer these ten questions:

1. How does technology enable a company to continuously improve how they attract attention, generate leads, and nurture those leads?
2. Which metrics should a company measure to determine the effectiveness of their inbound strategy?
3. Why is content an essential part of business strategy?
4. How can businesses ensure they get the most value possible out of the content they create?
5. How does content enable each part of inbound strategy (attract, engage, delight)?
6. What are the different channels, technologies, and strategies businesses can use to attract attention to themselves without spending money on advertising?
7. What are the different channels, technologies, and strategies businesses can use to engage visitors into leads and customer?
8. What are the different channels, technologies, and strategies businesses can use to delight your audience, turning them into promoters of your brand?
9. What technology, processes, and organizational structures should a business put in place to align marketing and sales around generating revenue?
10. What are the different inputs businesses can invest in to grow their inbound strategy and what are the pros/cons of each investment strategy?

COURSE DELIVERABLES

Inbound Strategy is a 16-week course that is divided into 16 modules. Each of these modules contains a series of lectures, readings and videos that lead into that respective week's discussion topic and assignment.

Throughout the semester, there will be discussion posts (15), assignments, certifications (2) and projects (2). All lectures, readings, discussion topics, assignments, reference videos and other

instructions are on the course website in Canvas. The two certifications will be administered through HubSpot's Learning Center.

COURSE EXPECTATIONS

Attendance

Since this is an online course, attendance can be better thought of as class participation. Class participation will be assessed in the following ways:

- Attending live lectures: Week 16 will be a live lecture. You are required to attend.
- Discussion questions: Each week will have a discussion question. You are expected to answer the question and also be an active participant in the following discussion. You should expect to spend around 30 minutes to one hour on your initial post and 30 minutes to one hour on your response. They should be high-effort responses that integrate key topics from the lectures, the required readings and viewings, and outside research.
- Peer evaluations: The final project is a collaborative, group project. A significant portion of your grade will be how your peers evaluate your work.

Interactions

Students will be expected to treat each other and the instructor with the utmost respect. This pertains to all of the class participation situations, and is especially important during the final project. Collaboration is essential, different perspectives are critical, and your ability to create an open and honest environment on your team will certainly impact your success in this course.

This conscientiousness is doubly important when interacting with the client, DexMat. They have graciously offered up their time and resources for this course. Treat them with the same integrity and respect you would give to a paying client.

Group Work

Many of us have participated in group projects where one member does not pull their weight. Frankly, it stinks, and it's not fair.

But collaboration is an essential skill. It's a prominent feature in this course, and a significant portion of your grade.

Not only will your peers evaluate your work, but each team member will have a specialized role to play in the final project. Unless you can trick someone into doing your work, it will show loud and clear if you don't try.

Just like in any job, nothing important gets done by just one person, and everyone has to pull their weight.

Ownership Education

As graduate students, you are not passive participants in this course. All students in this Program have a background in marketing, advertising, public relations, journalism, or similar fields. This class allows you to not only take ownership of your educational experience but to also provide your expertise and knowledge in helping your fellow classmates. The Canvas shell

will have an open Q&A thread where you should pose questions to your classmates when you have a question as it relates to an assignment or an issue that has come up at work. Your classmates along with your instructor will be able to respond to these questions and provide feedback and help. This also allows everyone to gain the same knowledge in one location rather than the instructor responding back to just one student, which limits the rest of the class from gaining this knowledge.

RECOMMENDED TEXTBOOKS

Students are encouraged to purchase this book:

Champion, Justin – *Inbound Content: A Step-by-Step Guide to Doing Content Marketing the Inbound Way* – <https://www.amazon.com/Inbound-Content-Step-Step-Marketing/dp/1119488958>

This is a practical book that will help students throughout their journey this semester (and will help prepare them to earn their Content Marketing Certification from HubSpot).

For the rest of the content, we'll rely on online articles, resources and courses to provide us with relevant and up-to-date education.

You will be required to take two certifications, provided by HubSpot:

- [Content Marketing Certification](#)
- [Inbound Marketing Certification](#)

To take these courses, you will create an account with HubSpot Academy to access their learning center [here](#).

Prerequisite knowledge and skills

A basic understanding of how brands use the major social media channels

- [8 Tips to Quickly Master Social Media For Businesses](#)

An awareness of the different channels available to digital marketers.

- [Which Internet Marketing Channel is Right for You?](#)

The concept of a CRM and the idea of a contact/lead.

- [What Is a CRM?](#)

Teaching Philosophy

I believe the most difficult step of achieving mastery is the cognitive jump from learning to doing. How do we take all of the abstract and disjointed concepts we learn and apply them to a real business?

This course is based on the idea that “jumping into the deep end” is the best way to demonstrate that you can apply what you have learned.

My purpose is to make sure you are able to navigate the waters as best you can.

COURSE POLICIES

Attendance Policy

Because this is an online asynchronously delivered course, attendance in the form of calling roll will not occur; however, students are expected to sign onto the course site at least once each day, Monday – Friday, to check for course updates in the announcements and discussion sections of the site. This will be especially important as you collaborate on your final project for DexMat.

There is a mandatory attendance policy for the one live lecture for this course in Week 6.

The attendance policy is consistent with UF’s policy, found at <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

Late Work & Makeup Policy

Late Work Policy: Deadlines are critical to this class. All work is due on or before the due date. Extensions for deadlines will only be for emergencies. Minor inconveniences such as family vacation or minor illness are not valid reasons for extensions. With this in mind there will be penalties for late work:

- | | |
|---|---------------------|
| ● Less than an hour late | 05 points off |
| ● More than an hour late but less than 24 hours late | 10 points off |
| ● More than 24 hours late but less than 48 hours late | 25 points off |
| ● More than 48 hours late | 50 points off |
| ● A week or more late | Not accepted at all |

Issues with uploading work for a grade is not an excuse. If a student is having technical difficulties with Canvas, there are other means to submit completed work. Student may email .zip files or even links to Dropbox folders to Instructor via UF email. Students should compensate for technical difficulties by not waiting until the last minute to submit work. There will be no special accommodations for technical difficulties.

Suggested technical issue policy: Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up. Contact UF helpdesk (352) 392-HELP.

Emergency and extenuating circumstances policy: Students who face emergencies, such as a major personal medical issue, a death in the family, serious illness of a family member, or other situations beyond their control should notify their instructors immediately.

Students are also advised to contact the Dean of Students Office if they would like more information on the medical withdrawal or drop process: <https://www.dso.ufl.edu/care/medical-withdrawal-process/>.

Students MUST inform their academic advisor before dropping a course, whether for medical or non-medical reasons. Your advisor will assist with notifying professors and go over options for how to proceed with their classes. Email your academic advisor and put “dropping a course” in the subject line. Your academic advisor will reply with the necessary procedures.

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalogue at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>

Coursework Submissions

In general, most coursework should be submitted through Canvas. For any coursework submitted outside of Canvas, list that here. **The following is an example:**

- Discussion Questions In Canvas
- HubSpot Certifications Taken in HubSpot, PDF certificate In Canvas
- Assignments In Canvas
- Mid-term In Canvas
- Final Presentation Live, Via Zoom, and uploaded to Canvas

Deadlines

This class, like others, involves many deadlines. Here is a reminder. The new lecture starts on Mondays:

- Discussion Question- Initial Post 5 PM EST Wednesdays the week of lecture
- Discussion Question – Peer Response 5 PM EST Sunday the week of lecture
- Assignments 5 PM EST Sunday the week assigned
- Mid semester project 5 PM EST Sunday week 8
- Final Presentation In Class, Live, Week 16

Grading

All assignment grading will be on 100 point scale.

Your work will be evaluated according to the following distribution

Weekly Discussion Questions	25%
Mid-Term Project	15%
Final Project	25%
Content Marketing Certification	5%
Inbound Marketing Certification	5%
Weekly Assignments	25%

Your final grade will be rewarded as follows.

A	100%	to	93.5%
A-	< 93.5%	to	89.5%
B+	< 89.5%	to	86.5%

B	< 86.5%	to	83.5%
B-	< 83.5%	to	79.5%
C+	< 79.5%	to	76.5%
C	< 76.5%	to	73.5%
C-	< 73.5%	to	69.5%
D+	< 69.5%	to	66.5%
D	< 66.5%	to	63.5%
D-	< 63.5%	to	59.5%
F	< 59.5%	to	0%

UNIVERSITY POLICIES

University Policy on Accommodating Students with Disabilities

Students requesting accommodation for disabilities must first register with the Dean of Students Office (<http://www.dso.ufl.edu/drc/>). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive. So students should contact the office as soon as possible in the term for which they are seeking accommodations.

Students with Disabilities who may need accommodations in this class are encouraged to notify the instructor and contact the Disability Resource Center (DRC) so that reasonable accommodations may be implemented. DRC is located in room 001 in Reid Hall or you can contact them by phone at 352-392-8565.

Netiquette: Communication Courtesy

All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. <http://teach.ufl.edu/wp-content/uploads/2012/08/NetiquetteGuideforOnlineCourses.pdf>

Class Demeanor

Mastery in this class requires preparation, passion, and professionalism. Students are expected, within the requirements allowed by university policy, to attend class, be on time, and meet all deadlines. Work assigned in advance of class should be completed as directed. Full participation in online and live discussions, group projects, and small group activities is expected.

My role as instructor is to identify critical issues related to the course, direct you and teach relevant information, assign appropriate learning activities, create opportunities for assessing your performance, and communicate the outcomes of such assessments in a timely, informative, and professional way. Feedback is essential for you to have confidence that you have mastered the material and for me to determine that you are meeting all course requirements.

At all times it is expected you will welcome and respond professionally to assessment feedback, that you will treat your fellow students and me with respect, and that you will contribute to the success of the class as best as you can.

Other Resources

Other are available at [http://www.distance.ufl.edu/](http://www.distance.ufl.edu/getting-help) getting-help for:

- Counseling and Wellness resources
 - <http://www.counseling.ufl.edu/cwc/> 352-392-1575
- Disability resources
- Resources for handling student concerns and complaints
- Library Help Desk support

Should you have any complaints with your experience in this course please contact your program director and/or student support coordinator at distancesupport@jou.ufl.edu or visit <http://www.distance.ufl.edu/student-complaints> to submit a complaint.

Course Evaluation

Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at <https://evaluations.ufl.edu>

Evaluations are typically open during the last two or three weeks of the semester. Students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results>

University Policy on Academic Misconduct

Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at <http://www.dso.ufl.edu/students.php>

The University of Florida Honor Code was voted on and passed by the Student Body in the fall 1995 semester. The Honor Code reads as follows:

Preamble: In adopting this Honor Code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the University community. Students who enroll at the University commit to holding themselves and their peers to the high standard of honor required by the Honor Code. Any individual who becomes aware of a violation of the Honor Code is bound by honor to take corrective action. A student-run Honor Court and faculty support are crucial to the success of the Honor Code. The quality of a University of Florida education is dependent upon the community acceptance and enforcement of the Honor Code.

The Honor Code: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."

On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied:

"On my honor, I have neither given nor received unauthorized aid in doing this assignment."

For more information about academic honesty, contact Student Judicial Affairs, P202 Peabody Hall, 352-392-1261.

Academic Honesty

All graduate students in the College of Journalism and Communications are expected to conduct themselves with the highest degree of integrity. It is the students' responsibility to

ensure that they know and understand the requirements of every assignment. At a minimum, this includes avoiding the following:

Plagiarism: Plagiarism occurs when an individual presents the ideas or expressions of another as his or her own. Students must always credit others' ideas with accurate citations and must use quotation marks and citations when presenting the words of others. A thorough understanding of plagiarism is a precondition for admittance to graduate studies in the college.

Cheating: Cheating occurs when a student circumvents or ignores the rules that govern an academic assignment such as an exam or class paper. It can include using notes, in physical or electronic form, in an exam, submitting the work of another as one's own, or reusing a paper a student has composed for one class in another class. If a student is not sure about the rules that govern an assignment, it is the student's responsibility to ask for clarification from his instructor.

Misrepresenting Research Data: The integrity of data in mass communication research is a paramount issue for advancing knowledge and the credibility of our professions. For this reason any intentional misrepresentation of data, or misrepresentation of the conditions or circumstances of data collection, is considered a violation of academic integrity. Misrepresenting data is a clear violation of the rules and requirements of academic integrity and honesty.

Any violation of the above stated conditions is grounds for immediate dismissal from the program and will result in revocation of the degree if the degree previously has been awarded.

Students are expected to adhere to the University of Florida Code of Conduct <https://www.dso.ufl.edu/%20sccr/process/student-conduct-honor-code>

If you have additional questions, please refer to the Online Graduate Program Student Handbook you received when you were admitted into the Program.

COURSE AND ASSIGNMENT DETAILS

Weekly Lectures

The Instructor will post a lecture video to Canvas for 15 of the 16 weeks and two additional videos – one is an introduction to the course and course topic and the other will cover the syllabus. These videos will vary in length depending on the material. It is your responsibility to watch each of the videos.

There will also be two live lectures. In week 8, the first live lecture, there will be a live presentation of the final project.

There is no supplement to missing week 16. It is the final presentation and your team is depending on you being there.

However, you are expected to do all you can to participate live. The aim for this interaction is to provide you with more skills and ideas for your assignments and story writing.

Although it is possible to watch the pre-recorded video lectures at any time and at any pace, keeping up with the videos week to week according to the schedule will be easier as many build off the other along with the weekly readings.

Assignment Details

Discuss Questions Details/Rubric:

Each week will have a discussion question based off of the lectures and assigned reading.

Grading for students' initial post and peer responses will follow the below rubric. A good rule-of-thumb is to spend ~1hr for each post (initial and peer response) though this time will depend on the student.

	Outstanding (90-100 points)	Good (80-89 points)	Average (70-79 points)	Limited (60-69 points)	No posting (0 points)
Comprehension	Shows serious contemplation of weekly lectures and readings Demonstrates original thoughts and perspectives that go well beyond obvious	Indicates reading and viewing was completed Addresses some of the implications and outcomes of the discussion question	Responses are based mostly on summary of the presented material	Indicates that the weekly lectures and readings were scanned but not thoroughly consumed Relies heavily on ideas written by other posters	
Research	Thorough research with source(s) presented Uses specific example(s) from industry to support point	Additional insight from outside sources	Relies on relevant sections of weekly lectures and readings to make point	Missing key principles of weekly lectures and readings	
Clarity and cohesion	Clear and articulate Correct grammar and punctuation Quotes and research (if relevant) are cited	Contains minor errors that don't confound meaning	Contains multiple spelling and grammatical errors that make comprehension difficult The point of the post is hard to follow	Post is sloppy It is difficult to understand what point the poster is trying to make	

Engagement with peers	Shows honest effort to engage with others Advances discussion beyond the obvious Interacts with classmates with respect and compassion, even if, and especially if, they disagree	Pays attention to other posts in the thread Acknowledges ideas presented by other students	Minimal interaction with other student contributions Summarizes other contributions without adding to the discussion	Does not acknowledge, misrepresents or is disrespectful to other posts or posters	
-----------------------	---	---	---	---	--

Weekly Assignment Details

Each week (except Week 16) will have an assignment. This assignment will build off of the week's theme, as presented in the lectures, readings and discussion questions.

For weeks 1-7, the assignments will:

- Help you complete a portion your mid-term project
- Prepare you for the final project

For weeks 9-15, the assignments will focus on doing work for the client, DexMat, as part of your final project to launch an inbound marketing campaign.

Please refer to the rubrics in the mid-term and final project documents for clarity on how your work will be assessed.

IN MASS COMMUNICATION
College of Journalism and Communications

UNIVERSITY of FLORIDA

COURSE SCHEDULE

WEEKLY MODULE DATES

Course Introduction & Syllabus

- [Course Introduction](#)
- [Syllabus introduction](#)

NOTE: This is a rough outline and is subject to change. It is provided for transparency. The true source of record on the work that needs to be done each week is in Canvas. Proceed farther ahead at your own discretion!

Week 1 – The Essentials of Inbound Strategy

Learning Objectives:

- Students will be able to compare and contrast inbound and outbound strategy.
- Students will be able to demonstrate how inbound can help companies/brands attract, engage (convert and close) leads into customers.
- Students will understand the four key principles of an effective inbound strategy: Contacts, Personas, Buyer's Journey, Goals.
- Students will be able to articulate how content and context drive inbound strategy.

Watch:

- Watch Inbound Marketing Fundamentals lesson in Inbound Marketing Certification ([link](#))

Required Readings:

- Build an inbound strategy in 24 hours ([guide](#))
- How to create Detailed Buyer Personas ([link](#))
- Ultimate Guide to Buyer Personas ([link](#))

Assignments:

- Read the mid-term project. Pick the company you will use for your project.
- Weekly discussion question
- Create the Buyer Persona for your business

Week 2 – Attracting People to Your Brand

Learning Objectives

- Students will be able to describe the different channels, technologies, and strategies businesses can use to attract attention.

- Students will be able to adapt their “attract” strategies to the changing landscape of search engine marketing, social media, and aggregation theory.

Watch

- Weekly lecture
- How to Find the Search Engine Strategies that Suit Your Business ([link](#))
- Social Media Promotion lesson in Inbound Marketing Certification ([link](#))

Required Readings

- Aggregation Theory ([link](#))
- Defining Aggregators ([link](#))
- Google’s Walled Garden ([link](#))

Assignments

- Weekly discussion question
- New channel proposal for your mid-term company

Week 3- Creating a Long-Term Content Strategy

Learning Objectives

- Students will be able to explain why and how content is essential to an effective inbound strategy.
- Students will be able to explain how businesses/brands can ensure they get the most value possible out of the content they create.
- Students will be able to explain how content empowers each part of an inbound strategy (attract, engage, delight).

Watch:

- Weekly lecture
- Content Marketing Certification, lessons 1-6 (Understanding Content Marketing through Becoming an Effective Writer) ([link](#))

Required Readings:

- The Compound Interest of Content Marketing ([link](#))

Assignments

- Weekly discussion question
- Content audit

Week 4 – Content Creation and Promotion

Learning Objectives

- Students will be able to create topic clusters.
- Students will be able to understand how to do link-building and why it is such an important part of a content strategy.
- Students will understand the basic principles of video marketing ([guide](#)).

Watch:

- Weekly lecture
- Content Marketing Certification, lessons 7-12 (“Extending the Value of Your Content Through Repurposing” through “Creating Topic Clusters and Pillar Pages”) ([link](#))

Required Readings

- The Definitive Guide to Link-Building ([link](#))

- Guide to Video Marketing ([link](#))

Assignments

- Weekly discussion question
- Link-building exercise
- Repurposing blog post activity

Week 5 – Conversions: Turning visitors into leads

Learning Objectives

- Students will be able to describe the basics of the funnel, understanding what happens on and off site.
- Students will be able to define and measure the core conversion metrics, VTL.
- Students will be able to articulate how conversion strategy can impact the unit economics of a business or brand (CAC to LTV).

Watch

- Weekly lecture
- Understanding Conversions lesson in Inbound Marketing Certification ([link](#))
- Creating a Conversion Optimization Strategy lesson in Inbound Marketing Certification ([link](#))

Required Readings

- How to build a conversion funnel ([guide](#))

Assignments

- Weekly discussion question
- Conversion-rate optimization exercise

Week 6 – Beyond the Funnel: Introducing the Flywheel

Learning Objectives

- Students will be able to describe the flywheel model and its core concepts (Attract, Engage, Delight, Force vs. Friction)
- Students will be able to explain how the flywheel model is different from the funnel framework and why it matters to today's businesses
- Students will be able to use the flywheel model to evaluate a business's performance

Watch

- Weekly lecture
- Growing Your Business With a Flywheel Model ([link](#))

Required Readings

- How the Flywheel Killed HubSpot's Funnel ([article](#))
- The Customer Code ([article](#))

Assignments:

- Use the Flywheel Model to evaluate the business of your choice

Week 7 – The MarTech Landscape

Learning Objectives

- Students will be able to articulate what the Marketing Technology Landscape looks like and what that means for modern digital marketers
- Students will be able to explain what APIs are and how they work
- Students will be able to diagnose a business's technl

Watch

- Weekly lecture

Required Readings

- The Marketing Technology Landscape ([infographic](#))
- Why HubSpot's Building a Centralized Platform ([article](#))
- What is an API? ([article](#))

Assignments:

- Weekly discussion question

Week 8 – Project Kick-Off – DexMat [LIVE SESSION]

Learning Objectives

- Students will be able to define the “Why,” mission, vision and values of the course client – DexMat.
- Students will be able to recognize how they will use their previously learned skills to create, launch and measure an inbound marketing campaign for DexMat.

Watch

- Weekly lecture
- Supplemental introduction and explanation videos from DexMat

Required Readings

- 3 Steps to Creating a Content Inventory for the Buyer's Journey ([link](#))

Assignments

- Weekly discussion question
- Conduct a content audit of DexMat's existing content
- Set up a time to meet virtually with your teammates. Assign roles and submit them to professor

Week 9 – All About HubSpot

Learning Objectives

- Students will be able to list the different resources they have to learn about the HubSpot software.
- Students will be able to identify the different places they can go to get help with the HubSpot software if they have problems.

Watch

- Weekly lecture
- The first 13 minutes of this HubSpot product demo ([link](#))
- Understanding Marketing Hub lesson from HubSpot Marketing Software Certification ([link](#))

Required Readings

- HubSpot Email User Guide ([link](#))
- HubSpot Workflows User Guide ([link](#))
- HubSpot Campaigns User Guide ([link](#))
- HubSpot Blogging User Guide ([link](#))

Assignments

- Accept your invitation to DexMat's HubSpot account.
- Create your team's campaign in HubSpot

- Weekly discussion question

Week 10 – Running a Marketing Campaign

Learning Objectives

- Students will be able to associate each part of an inbound marketing campaign with the correct tool in HubSpot.
- Students will be able to create SMART goals for a marketing campaign.
