MMC 6400: Digital Communication Theory
WDOC Spring 2016
College of Journalism and Communications
University of Florida

Instructor: Jennifer Braddock, Ph.D.
email: jbraddock@ufl.edu
Skype: dr.jbraddock
Twitter: @drjbraddock
Office Hours (via Skype): By Appointment, hours flexible to include evenings and weekends
Course Website: http://lss.at.ufl.edu

Course Description and Goals:

Over the course of this term we will cover mass communication theory from its inception as a field of study, to major trends, followed by current applications of previous paradigms, and finally into the development of new currents of thought. While the main focus of this course is the integration of current mass communication theory with an individual and organizational online presence, we will also focus on how digital platforms can inform the future of theoretical research and vice versa. From a practical perspective, students will be able to apply these theories to their integrative approaches in creative digital communication.

Course Objectives:

By the end of this course, students will:

1) Develop an appreciation for what constitutes ‘good’ theory
2) Gain a cognitive understanding of major mass communication theories
3) Demonstrate practical application of those theories to the digital world
4) Display knowledge of the most current digital platforms and technologies and how communication theories inform our use of those platforms
5) Evaluate and incorporate the theories discussed, as well as new theories, into an individual project demonstrating mastery of the theory at hand
6) Compare, contrast, and critique current theories and their potential applications in the digital world
7) Identify areas of future research/application of new communication theories
8) Integrate web design knowledge with digital communication competence
9) Transfer knowledge gained to the professional communication arena in individual areas of interest
10) Develop critical thinking, analytical, and writing skills

Required Texts:
There are **no required textbooks** for this course. All readings will be provided in Canvas as PDFs or as a link to online materials.

**Engagement:**

Online courses offer a unique opportunity for students to engage with the instructor and with one another on various platforms. We will utilize three major platforms over the course of this term to foster engagement and communication aside from Canvas and Email:

1. A secret course Facebook group
2. Periodic live meetings in our Adobe Connect room
3. A Twitter party

Students are highly encouraged to take advantage of these opportunities. The Instructor will provide more information on each one as the semester commences.

**Expectations:**

MMC 6400 is a graduate level course and the work students submit in this course should be a reflection of higher-level cognition, critical thinking, writing, and overall academic abilities. In addition, I expect students to complete all assignments on time, to be respectful of one another and the instructor, and to do their best work. These expectations apply not only to interactions within Canvas, but also to communication via email, on the Facebook page, during live meetings and the Twitter party, etc.

**Assignments**

All assignment information is also posted in the ‘Assignments’ tab or the ‘Discussions’ tab in Canvas.

**Lecture Discussion Posts (LDP) (65 pts.)**

Students will create ONE (1) Lecture Discussion Post (LDP) in 13 of the 15 modules in response to prompts and/or questions posed by the instructor during lectures. LDPs will be posted into each individual module’s discussion forum (choose ‘Discussions’ from the toolbar on the left in Canvas, then click on the desired module and begin). The questions posed each week will be different so be sure to **answer the question(s) within each individual discussion forum.** LDPs must be at least **350-500** words in length and should completely answer **each and every question** posed by the instructor. Do not exceed 500 words. Students who fail to answer all questions will lose points. Where applicable, LDPs should include thoughtful responses and discourse that connect what is discussed throughout the lecture to
the student’s work or experience with digital communication. There will be thirteen (13) LDPs this semester and each one is worth FIVE (5) points.

<table>
<thead>
<tr>
<th>Lecture Discussion Posts (LDPs) Grading Rubric</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
</tr>
<tr>
<td>No Post is written or posts includes plagiarized content (all outside content must be in quotations or student will receive a ‘0’))</td>
</tr>
</tbody>
</table>

Each post is worth five (5) points. Please see the rubric above for information regarding point distribution. All Discussion Postings are due by **Sunday at 11:00 PM EST**. Create your post in Canvas, under the Discussion section (see left side toolbar) or access the discussion by clicking on the links in each module.

**Reading Reaction Posts (RRP) (75 pts.)**

In addition to the LDP, students will create **ONE (1) Reading Reaction Post (RRP) of 350-500 words** in 14 of the 15 modules based on the assigned readings/media links found in the Course Modules section of the Canvas site.

Students will not be responding to specific questions posed by the instructor, but rather will offer a **synthesis** (not just a summary) of the ideas presented in the readings/videos. Student posts should compare and contrast the readings and/or any competing ideas presented within the readings. Further to this analysis of the readings/videos, students should draw connections between the content of the readings and applications of that information to the digital world, either in their professional work or personal experiences. This is the student’s opportunity to discuss their own thoughts and how these readings resonate with them.

Questions you could answer while reading that could be incorporated in your RRP synthesis:
How are these readings connected?
Is there a theme that is present in each of the items in one form or fashion?
How are the materials or ideas presented similar? How are they different?
Who/what organizations authored the materials? Does that matter?
What is the overall understanding obtained from the readings combined?

In addition to the synthesis and analysis of the readings/videos, students will include at least TWO (2) reading response questions (RRQs) to encourage engagement with their colleagues. These questions are NOT included in the 350-500 word count. These questions should spur additional, thoughtful discussion among the students (not just ‘yes’ or ‘no’ questions). Then, students will respond to at least TWO (2) other students’ posted discussion questions with 100-300 word responses under the Discussions tab in Canvas. RRPs are due no later than Sunday at 11:00 PM EST each week. Students will then respond to at least TWO other students’ RRQs no later than Wednesday at 11:00 PM. (This allows approximately three days between posting an RRP (Sunday) and responding on other students’ RRPs to answer their RRQs.) You will have until the following Sunday at 11:00 PM EST to respond to any comments made on your original post. Here’s an example of how it works:

1. Sunday night: Matt posts his RRP of 350-500 words and adds 2 RRQs
2. Matt then goes to two other students’ (Susie and Tim) RRPs and answers both of their RRQ sets (a total of 4 questions) in 100-300 word responses no later than Wednesday night.
3. Matt continues to monitor his own RRP and sees if other students have answered his questions. If they have, he responds by the following Sunday evening, perhaps even checking his thread as he’s working on the next week’s post, due that same evening.
4. Matt congratulates himself for meeting all deadlines and encouraging discussion, and celebrates by eating a cookie.

In order to receive full credit students must respond to all student discussion posts on their own threads. If no one posts to your RRQs, you do not have to respond. The goal is to have a system of thoughts, questions, and responses among the class so that we have engagement and discussion similar to an in-class experience.

There will be 14 assigned RRPs (with RRQs) and all but one of the posts will be worth 5 points (Module 11’s RRP is worth 10 pts. and is the only discussion post for that week). Create your post in Canvas, under the Discussion section (see left side toolbar).

For more information on the main components of a synthesis, see the link below. You are not required to write a synthesis essay as the post suggests, but this offers a resource for how to synthesize materials and draw connections between the readings in addition to adding your own experiences.
https://www.msu.edu/~jdowell/135/Synthesis.html
inform
have the opportunity to interact with one another and with the instructor in a more
and will last approximately
The meetings will occur either in our Adobe Connect room, via Skype, or on Twitter and will last approximately 15-30 minutes each. Above all, the goal is for students to have an opportunity to interact with one another and with the instructor in a more informal setting. Students will earn points for each live meeting attended.

Mini-Module Assignments (MMA) (60 pts.)

These assignments are spread throughout the semester and will offer opportunities for students to apply what they’ve learned in a digital context. Each assignment is different and full details are offered in the Assignments tab in Canvas. Students are required to complete four (4) mini-module assignments, for a total of 60 points.

Again, the goal is the make connections between theory and use of theory in actual mass or mediated communication contexts. All Mini-Module assignments are due Sunday at 11:00 PM EST of the week assigned.

Live Meetings (20 pts.)

There will be four (4) live meeting opportunities this term. Each live meeting will have a different purpose and will be scheduled as we move through the semester. The meetings will occur either in our Adobe Connect room, via Skype, or on Twitter and will last approximately 15-30 minutes each. Above all, the goal is for students to have an opportunity to interact with one another and with the instructor in a more informal setting. Students will earn points for each live meeting attended.
Self-Reflection Paper (80 pts.)

Over the course of the semester, students will have ample occasion for relating the course materials to their own experiences. The self-reflection paper offers students the opportunity to share their thoughts on mass communication theory and web design and/or online communication applications from their own perspectives.

This four- to five- (4-5) page paper should include references to class lectures, readings, activities, and assignments (i.e. in Lecture 2 we learned about...) but need not refer to outside readings. **This is not a research paper.** This paper should be more like an intelligent (albeit one-sided) conversation between mass communication colleagues that allows the writer to not only display their knowledge, but also make connections in their own lives and work.* Questions that students might consider include:

How is mass communication theory important to my field?
How are mass communication theories and paradigms important to me as an individual?
How have my communication approaches and tactics changed as a result of this course?
Why should other students take this course? How would they benefit?
What readings/activities/assignments were most meaningful to me in gaining application-based knowledge of mass communication theory?
How will mass communication theories apply to my job in the future?

Students may find it helpful to record their thoughts throughout the semester for inclusion in this final paper. The page total includes references.

*Do not plagiarize your discussion posts or any other written work when writing this paper. You can certainly refer to points made or ideas from your other assignments, but do not copy and paste material. This paper should be something new.

Paper specifications: 4-5 pages, APA-style, double-spaced, Times New Roman, 12 pt. font, 1” margins
See the [OWL at Purdue](https://owl.purdue.edu) for assistance with APA-style writing.
**Due 4/20 by 11:00 PM EST**

Individual Project Assignment (200 pts.)

Students will choose one theoretical perspective or paradigm and then utilize that perspective to analyze and evaluate the mass communication strategies of at least one (1) organization/company/entity. Students will rank order theory options, but will be assigned a theory by the Instructor. **The goal of this project is to APPLY the theoretical perspective in terms of how the company you choose**
might have used your theory in the past, or how the company might use it in the future; all within the context of web design and online communication.**

-Theory Choice: The list below contains the theories for use in this project:

  Two-step Flow Theory
  Diffusion of Innovations
  Media Systems Dependency
  Social Responsibility Theory
  Interactivity Theory
  Framing Theory
  Expectancy-Value Theory
  Information Processing Theory
  Elaboration Likelihood Model
  Agenda-Setting Theory
  Social Network Theory/Network Theory
  Other Theory of the your choosing (Requires instructor approval)

Theory choices should be ranked in order of preference and emailed to the instructor no later than **Sunday, 1/17/16 at 11:00 PM EST.** Preference will be given by the date I receive the email followed by the ranking of topics. Individuals that fail to meet the deadline will be assigned at will. Topic assignments will be posted in Canvas.

**These are the components:**

1) Paper: ONE (1) seven- to eight-page (7-8) paper, APA style in-text citations and reference list, double- spaced, 1” margins, 12 pt. Times New Roman Font. Project rubric provided in the Assignments tab in Canvas.

2) Presentation with Slides: 8-12 slides. You may select to audio record the slide presentation (limit presentation time to 15 minutes) OR simply provide a transcript that students/the instructor may follow through each slide (by placing a word for word transcription of the presentation in the “notes” section of PowerPoint). **If using the transcript option, do not cut and paste content from the paper directly into PowerPoint.** Think about what you would say to a live audience and type it out for your transcript. Show us your professional personality!

There is **NO VIDEO COMPONENT** necessary, though students are welcome to provide a video version of their presentation as long as the slides are visible (limit 15 minutes in duration). Keep in mind for your presentation content especially (and to some extent the paper content) that we have already covered these theories via lecture or readings (some in great depth, others are just mentioned), so you'll want to bring something new to the table. While your paper may offer a detailed description of the theory, you'll want to focus on providing new information to your audience during the presentation. Use 1-2 slides to briefly summarize/review the
theory itself and then move on. Teach us something new with regard to the digital world—a new application of the theory, a new study that has come out, a contemporary perspective, etc. and use the company you chose as your main exemplar (8-12 slides).

3) ONE (1) Reading: One (1) academic article that adds something to the discussion aside from what is offered in your presentation slides OR one (1) current, web-linked article situating the topic (albeit potentially implicitly) within contemporary communication contexts as related to your theory. Academic articles can be accessed by searching the UF Library online or conducting a Google Scholar search. Non-academic articles could be found on sites like Mashable or via an online search of newspapers like the New York Times. If choosing a non-academic source, ensure that the article is relevant and contains credible sources. Wikis are not permitted and should not be used as resources for this project.

4) Discussion questions: Each individual will submit TWO (2) discussion questions for the weekly discussion posts, one (1) from your assigned reading selection (RRP) and one (1) based on the information in your presentation (LDP).

Paper Outline (Include these roman numerals as headers in your paper)

In addition to a standard Introduction and Conclusion section, please ensure you've included the following content sections:

I. Theory summary—Describe and summarize the theory to include major tenets, historical foundations, research applications, etc. Be sure to situate the theory among the paradigms we discussed at the beginning of the course (trends, etc.). (1-2 pgs.)

II. Evaluate the theory—Discuss the theory’s goodness based on the criteria presented in Module 2’s lecture, slide 23; present relevant past and present applications. (1 pg.)

III. Identify and describe at least one company/entity/organization who uses (past and/or present) digital mass media. Your company should be active in the digital world either via their website, social media, or creation or use of digital technologies, etc. (1 pg.)

IV. Apply the theory—Show how the theory you chose applies to mass communication today, particularly in the case of the company you chose in section III. Include an analysis of their website as well as communication technologies, social media, computer-mediated communication or any other online mass communication context we’ve discussed over the course of the semester in which to situate your discussion. Remember that you can apply your theory to your company's past digital communications. (2 pgs.)
V. Make Predictions—Describe how your company could apply the selected theory in new ways in the future. Is there a digital application the company does not currently use that might provide an example of your theory in action? What improvements could they make to the design of their website based on your theory? (1 pg.)

VI. Extend the theory—What new characteristics can you add to the theory? How can the theory be expanded to meet the changing digital landscape? Be sure to summarize the most recent published findings regarding your theory (this will require some research using the UF Libraries and/or Google Scholar), if any, so that you are bringing something new to the theoretical discourse. Also depict how the theory can be adapted to current trends in the digital world based on what you’ve learned during this course. Use examples to support the adaptation of this theory and also state how your extension of the theory might apply to the company/entity/organization you chose. Outline potential future applications of your theory. (1 pg.)

All components (paper, presentation, evaluations, reading assignments and discussion questions) must be uploaded into Canvas no later than 11:00 PM EST on Sunday, 3/27/16 into the Assignments tab. To upload your project components, go to Canvas, ‘Assignments’ and choose ‘Individual Project.’ See the OWL at Purdue for assistance with APA-style writing.

**Deadlines for the Individual Project**

**Sunday, 1/17/16 at 11:00 PM EST:** THEORY RANK EMAIL: Email ranked theory selections to the instructor. Theory preference given in order of email receipt, followed by rank order of theories.

**Wednesday, 3/27/16 11:00 PM EST:** ALL INDIVIDUAL PROJECTS DUE IN CANVAS. This includes presentation materials, paper, reading assignments, and discussion questions. **Upload all materials into the Assignments tab.**

**At any time:** If you are having trouble with any component of this assignment, please feel free to contact the instructor for guidance or clarification.

Feedback

One of the most important ways that professors can interact with their students is through feedback on assignments. You can expect to receive very specific, constructive feedback on your work to include discussion posts and major assignments. In some instances, I will provide track changes documents to assist students with writing skills to improve their posts. As a general rule, you should receive your scores and feedback on submitted posts within 5-7 days. More time is required to complete the grading process for major assignments and will be dependent upon the number of students enrolled in the course. Also, keep in mind that the RPs will not be graded until 1-2 weeks after submission to allow time for the discussion process plus the 5-7 day grading period.

University Graduate Level Grading Policy: [http://gradcatalog.ufl.edu/](http://gradcatalog.ufl.edu/)
Grades for this graduate course will be based on the total points earned over the term.

**Course Policies**

- **Student Effort**
  As with any course, students will benefit from their own effort in learning the class materials and participating fully in activities, group work, readings, etc. Student grades are often a good reflection of their attitudes and motivations in coursework.

- **Professionalism**
  Students are expected to maintain the appropriate level of professionalism, cooperation, and language in all aspects of this course including, but not limited to, weekly posts and responses to said posts, written assignments, presentations, and interactions with the instructor and colleagues. Students should also incorporate suitable standards for grammar, spelling, and word choice. Please see the Online Writing Lab (OWL) at Purdue for a refresher if necessary: [https://owl.english.purdue.edu/](https://owl.english.purdue.edu/).

- **Deadlines**
  Follow all deadlines as printed in the course syllabus and weekly modules. Mini-module, Individual Project, and Self-Reflection paper assignments turned in late will be assessed a full letter grade deduction for each day they are late. Mini-module, Individual Project, and Self-Reflection paper assignments turned in less than a full day late will receive a 5% point deduction prior to grading. Lecture Discussion and
Reading Response posts (and comments) turned a full day late or less will receive a 1-point (out of five possible points) deduction, followed by one additional point for each day late until the assignment reaches a ‘0.’

Students should utilize time management skills when completing assignments, particularly when dealing with other concerns present in daily life (jobs, children, other commitments, etc.). Students are strongly encouraged to work ahead of schedule to avoid missed deadlines, particularly in the case of final assignments.

- Communication
If students have questions or concerns they are encouraged to communicate with the instructor via email or Skype. Please allow 48 hours for email responses or to schedule a Skype appointment unless otherwise indicated throughout the semester.

- University Policy on Accommodating Students with Disabilities:
Students requesting accommodation for disabilities must first register with the Dean of Students Office (http://www.dso.ufl.edu/drc/). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive, therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations. Students with Disabilities who may need accommodations in this class are encouraged to notify the instructor and contact the Disability Resource Center (DRC) so that reasonable accommodations may be implemented. DRC is located in room 001 in Reid Hall or you can contact them by phone at 352-392-8565.

University counseling services and mental health services:

- Netiquette: Communication Courtesy
All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. See the link below for more details on exercising proper netiquette in this course.

- Getting Help:
For issues with technical difficulties for E-learning in Canvas, please contact the UF Help Desk at:

- Learning-support@ufl.edu
- (352) 392-HELP - select option 2
- https://lss.at.ufl.edu/help.shtml

** Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The
ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Other resources are available at http://www.distance.ufl.edu/getting-help for:

- Counseling and Wellness resources
  - 352-392-1575
- Disability resources
- Resources for handling student concerns and complaints
- Library Help Desk support

Should you have any complaints with your experience in this course please visit http://www.distance.ufl.edu/student-complaints to submit a complaint.

- Course Evaluation
  Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at https://evaluations.ufl.edu
  Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results

- University Policy on Academic Misconduct
  Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at http://www.dso.ufl.edu/students.php.

  Students are expected to adhere to the University of Florida Code of Conduct https://www.dso.ufl.edu/scrc/process/student-conduct-honor-code

  If you have additional questions, please refer to the Online Graduate Program Student Handbook you received when you were admitted into the Program.

  The University of Florida Honor Code was voted on and passed by the Student Body in the Fall 1995 semester. The Honor Code reads as follows:

  Preamble: In adopting this Honor Code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the University community. Students who enroll at the University commit to holding themselves and their peers to the high standard of honor required by the Honor Code. Any individual who becomes aware of a violation of the Honor Code is bound by honor to take corrective action. A student-run Honor Court and faculty support are crucial to the success of the Honor Code. The quality of a University of Florida
education is dependent upon the community acceptance and enforcement of the Honor Code.

The Honor Code: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied:

"On my honor, I have neither given nor received unauthorized aid in doing this assignment."

For more information about academic honesty, contact Student Judicial Affairs, P202 Peabody Hall, 352-392-1261.

- Plagiarism

Plagiarism occurs when an individual presents the ideas or expressions of another as his or her own. Students must always credit others’ ideas with accurate citations and must use quotation marks and citations when presenting the words of others. A thorough understanding of plagiarism is a precondition for admittance to graduate studies in the college.

You are responsible for knowing the definition of plagiarism and various kinds of academic dishonesty. Ignorance, i.e. “I didn’t realize that was plagiarism” is not an acceptable response, and will not excuse you from academic dishonesty violations, if discovered. While you are responsible for reading and understanding UF’s policy in its entirety, examples of academic dishonesty include:

- Using phrases or quotes from another source without proper attribution or quotation marks
  For purposes of this class, five or more words (verbatim) from a source without proper attribution or quotation marks will be considered plagiarism.

- Paraphrasing without proper attribution

- “Forgetting” to source material you use (same as above, intentional or not)

- Passing off others’ ideas as your own

- Turning in the same assignment or paper for two courses, i.e. “dual submission.”

- Stealing and/or copying other students’ work, whether on a test or assignment

- Bribery

- Fabrication of material

If you have any questions about plagiarism, or how to properly cite or attribute sources, please ask. I am always happy to show you how to correctly do this in your scholarly work.
**Cheating:** Cheating occurs when a student circumvents or ignores the rules that govern an academic assignment such as an exam or class paper. It can include using notes, in physical or electronic form, in an exam, submitting the work of another as one’s own, or reusing a paper a student has composed for one class in another class. If a student is not sure about the rules that govern an assignment, it is the student’s responsibility to ask for clarification from his instructor.

**Misrepresenting Research Data:** The integrity of data in mass communication research is a paramount issue for advancing knowledge and the credibility of our professions. For this reason any intentional misrepresentation of data, or misrepresentation of the conditions or circumstances of data collection, is considered a violation of academic integrity.

Any violation of the above stated conditions is grounds for immediate dismissal from the program and will result in revocation of the degree if the degree previously has been awarded.
