COURSE DESCRIPTION:

Electronic media encompass all contemporary paths of mass communication into our lives: radio, television, cable, satellite and the internet. This course investigates their dynamic influence by unveiling principles that govern media channels of information and entertainment. The goal for students is to understand how our media tools were created, were nurtured into an information industry, and now shape our lives in political, economic, and social ways. We will critically analyze the latest developments from the standpoints of media owners, advertisers, managers, producers, and audiences.

COURSE OBJECTIVES:

Students will gain knowledge of media industries and professions. In addition, changes in new media, business practices, converging markets, and regulatory philosophies will be addressed. This course is designed to offer you an overview of the origins, organizations, and movements that have shaped electronic media. We will learn and discuss the following developments:

- The historical development of electronic media
- The technologies involved in the creation of electronic media
- The structure, economics, and regulation of electronic media
- The political and legal issues involved in content and management decisions
- The economics of electronic media, including programming and ratings

REQUIRED TEXTBOOK:

John V. Pavlik and Shawn McIntosh. *Converging Media: a New Introduction to Mass Communication, 5th ed.* New York: Oxford University Press, 2017.

E-LEARNING: RTV 3001 slides, study questions, and exam grades are available through **E-Learning** at <http://lss.at.ufl.edu/> and are organized by topic areas that correspond chronologically to material covered in the course.

CLASSROOM POLICIES:

- Please arrive on time, turn-off cell phones, & avoid leaving early during class
- No last-minute emails with twenty questions the day before the exam
- Will not respond to emails with questions the day before the exam
- No make-up exams will be given without 48 hour prior approval
- Warning: Cheating results in automatic F for the semester!

ATTENDANCE:

Students who attend lectures will perform better and learn more. Lectures provide an opportunity for enhanced learning through a free discussion of ideas, sharing of input and clarification of concepts. Your input will help others and yourself to grasp course content. Note that you will be responsible for not only assigned readings but also for details presented in class that are not in the text. Lectures will reflect recent developments in the telecommunication industry not covered in the text. Because the industry is so complex, this course will cover a lot of ground. As a result, regular attendance is necessary to succeed in this course.
