**COURSE DESCRIPTION**

To develop a thorough understanding of the lighting techniques the student will need in a career as a photojournalist, an art director, or someone who uses photography professionally. That includes the use of accessory camera flash, the mastery and manipulation of available light, and the successful use of mixed light source techniques. If you're a photojournalist, you're likely to have assignments outside the realm of "breaking" or "spot" news, and this course will equip you with the skills necessary for portraiture and feature photography. For students not on a photojournalism course track, you will find this class valuable, as it takes the use of light well beyond the basics.

Depending on the individual assignment, three to six final images per week will be required. Images must be named using the following convention:**

**Your last name \_assign2-1.jpg**

**Your last name \_assign2-2.jpg**

**Your last name \_assign2-3.jpg**

## **EQUIPMENT REQUIREMENTS**

**You must supply your own professional or semi-professional digital SLR cameras, cards, lens(es) and dedicated accessory flash (system). Canon or Nikon cameras are recommended. The “kit” 19-55mm lens is adequate for the course. I have done some research and the spring 2019 JOU4603 class had good luck with the following flash gear.. It’s relatively “cheap” gear (less than a couple of textbooks!) and will probably last you longer than your stay at UF. Of course, if you don’t want to keep the gear, you can likely recycle it by selling it to a student taking the course next year.**

### **ADDITIONAL CLASS POLICIES:**

#### **• Late Work:**

1. All late work will be lowered one full letter grade each day it is late.
2. Late work will be accepted for a grade for only one week after the due date.
3. All assignments must be completed regardless of grade/point off in order to pass this class
4. All work presented late for a critique will not take part in critique.

**• Professional behavior is expected. Inappropriate behavior could permit me to ask you to leave the classroom, which may result in an absence.**

**• Unless otherwise required for the class, all cell phones and computers should be turned OFF during class. The classroom is a focused environment. Therefore, cell phone and computer use is highly distracting to your classmates and instructor. If a student is found to be using a cell phone or computer, there will be consequences, grade-wise.**

#### **ACCOMODATION FOR STUDENTS WITH DISABILITIES**

Students requesting classroom accommodations must first register with the Dean of Students office. The Dean of Students will provide documentation to the student who will then provide this to the instructor when requesting accommodation. The ADA office ([www.ada.ufl.edu](http://www.ada.ufl.edu)) is located in room 232 Stadium (phone 392-7056 TDD 846-1046)
