Course Description & Prerequisites

In this course, students will be introduced to the theories behind Human-Computer Interaction (HCI) and apply them directly to User Experience Design (UXD). The students will learn the UXD process through a hands-on approach to bi-weekly projects that build off one another and accumulate to the final project, a presentation of the student's UXD recommendation for a website, or other digital medium. The final presentation is a branded user experience complete with user flows, personas, information architecture, wireframes, and insights from usability testing to optimize their experience. This course will teach students to effectively communicate and evaluate user experiences.

Course Grading Policies

Grading Criterion, Late Assignment Policy, and Expectations for Assignments

GRADING CRITERION

Discussion Boards (Total 10%)

Your initial posts must be a substantive and scholarly submission. The purpose of the Discussion Board assignments is to demonstrate a working understanding of the concepts being discussed during the active module.

There will be four discussions (one for each module) that must be a substantive and scholarly submission. You must reply to at least two other students' posts and your instructor with a substantive and scholarly response. A substantive response adds scholarly value to the discussion by bringing new ideas, research, evidence, etc. to the conversation. Responses such as "I agree," "Ditto," etc., are not acceptable replies and the rules of Netiquette must be followed. Replies are not texts with friends and proper rules of writing must be applied including citations and references (do not plagiarize).

All initial posts for each module discussion board must be submitted by Thursdays at 11:59 PM, ET, so your peers have time to respond to your initial post. Responses to peers are due by Sundays at 3:00 PM, ET. To view the grading criteria rubric for the discussions in the courseroom, click the Settings icon (the 3 dots on the top-right corner) and select the *Show Rubric* button.

Journal (Total 30%)

You will complete four (4) journal entries in this course. The purpose of design journal writing in a course is to help you critically think about the course learning materials, personal experiences, and synthesize the information to promote personal and professional growth that promotes healthy change. Make sure that you use proper grammar, word choice, syntax (arrangement of words to create well-formed sentences), and writing mechanics (capitalization, punctuation, and spelling) in your journal as well as proper citing and referencing of all your sources. This is also a place to develop design thinking and visual (graphic) design skills.

Writing Assignments (Total 30%)

Writing assignments will focus on the analysis and synthesis of findings gathered from research that will be conducted throughout the course. This series of formal reports detailing findings based on the use of various inspection and evaluation methods will provide you the opportunity to demonstrate your ability to apply the concepts being taught in each module. The writing assignments that you will complete are the types of reports that you may be asked to produce in your career, and they can be used as portfolio material.

Group Project (Total 25%)

You will be required to participate in and complete a group project that will involve collaborating with your peers to produce a final product. This assignment offers you the opportunity to practice virtual collaboration skills that are applicable to the 21st Century global workforce. Group work can be challenging; however, it is a reality in nearly every employment setting. Learning to be a collaborative and supportive team member that can resolve conflicts in an appropriate manner is an important part of the skills you will develop and/or enhance through your education at CJC Online Graduate programs.

Certification Course (Total 5%)

You will be required to complete a certification course delivered through the globally recognized Collaborative Institutional Training Initiative (CITI Program.)

Expectations for Writing Assignments

Writing Style

In order to meet the academic rigor and standards of a graduate program, all students are required to use the Publication Manual of the American Psychological Association (APA) 7th Edition style in their courses. The APA 7th Edition Manual has a plethora of guidelines that includes scholarly writing, publishing principles, elements and format for your papers, writing style and grammar, bias-free language guidelines, mechanics of style, intext citing and

references, etc. For additional information on notable changes, see changes between APA 6th Edition and APA 7th Edition.

Your grade will be calculated based on the following:

The only passing grades for graduate students are A, A-, B+, B, B-, C+, C, and S. Grades of B-, C+ or C count toward a graduate degree if an equal number of credits in courses numbered 5000 or higher have been earned with grades of B+, A- and A, respectively. Grade points are not given for S and U grades; S and U grades are not used to calculate grade point averages. All letter-graded courses eligible to count toward the graduate degree, except 1000- and 2000-level courses, are used to calculate the cumulative grade-point average. Letter grades of C-, D+, D, D- or E are not considered passing at the graduate level, although the grade points associated with these letter grades are included in grade point average calculations. See the [UF grading policy](#) for more information.

LATE ASSIGNMENT POLICY

Late assignments will not be accepted unless it is a [University excused absence](#) as stated in the attendance policies. **No late work will be accepted for final projects or work due in the final week of class due to the university grading deadlines.** If potential issue arise concerning submitting final work, students should contact their instructors before deadlines to discuss the possibility of an Incomplete Grade Contract.

1. Late Assignment Grade Reductions
 - a. 0-24 Hours Late: 10% reduction in grade.
 - b. Over 24 Hours (24 hours and 1 minute) to 7 Calendar Days Late: 20% reduction in grade.
 - c. After the 7th Calendar Day: Work will not be accepted.
2. Late Discussions will not be accepted.

EXPECTATIONS FOR ASSIGNMENTS

Academic Integrity Policy

UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code." The [Student Honor Code](#), Violation of the Student Honor Code, specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to the appropriate personnel. If you have any questions or concerns, please consult with the instructor or TA's in this class.

Netiquette

Casual style of communication is commonly found in the online environment and students are sometimes tempted to relax their grammar, word choice, syntax (arrangement of words to create well-formed sentences), writing mechanics (capitalization, punctuation, and spelling), and/or professionalism. All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.
