Project Description

New Media for Relaxation and Mindfulness

People have long used media to help improve their moods and to escape from stress in their lives. Today, there is growing demand for media content and platforms that can help improve focus, peace of mind, and healthy mental states. New technologies such as mobile apps, biofeedback devices, and more can address these needs, but how effective are they? In this project, you'll assist with a project that uses interviews to understand user experiences with these technologies. Students will learn about literature reviews, in-depth interviews, transcription, thematic analysis, and how to write up and present findings. This project is part of a program of research led by Dr. Benjamin Johnson (<https://www.jou.ufl.edu/staff/benjamin-johnson/>) and his doctoral advisee, Bhakti Sharma. Meetings are once a week. We will follow weekly COVID safety guidelines, so may meet in-person or via zoom.

Course Policies

COVID-19 Protection and Care

In response to COVID-19, the following practices are in place to maintain your learning environment, to enhance the safety of our in-classroom interactions, and to further the health and safety of ourselves, our neighbors, and our loved ones.

If you are not vaccinated, get vaccinated. Vaccines are readily available at no cost and have been demonstrated to be safe and effective against the COVID-19 virus. Visit this link for details on where to get your shot, including options that do not require an appointment: <https://coronavirus.uflhealth.org/vaccinations/vaccine-availability/>. Students who receive the first dose of the vaccine somewhere off-campus and/or outside of Gainesville can still receive their second dose on campus.

You are expected to wear approved face coverings at all times during class and within buildings even if you are vaccinated. Please continue to follow healthy habits, including best practices like frequent hand washing. Following these practices is our responsibility as Gators (and humans).

- Sanitizing supplies are available in the classroom if you wish to wipe down your desks prior to sitting down and at the end of the class.
- Hand sanitizing stations will be located in every classroom.

If you are sick, stay home and self-quarantine. Please visit the UF Health Screen, Test, & Protect website about next steps, retake the questionnaire, and schedule your test for no sooner than 24

hours after your symptoms began. Please call your primary care provider if you are ill and need immediate care, or contact the UF Student Health Care Center at 352-392-1161 (or email covid@shcc.ufl.edu) to be evaluated for testing and to receive further instructions about returning to campus. UF Health Screen, Test, & Protect offers guidance when you are sick, have been exposed to someone who has tested positive, or have tested positive yourself. Visit the UF Health Screen, Test, & Protect website for more information:

<https://coronavirus.ufhealth.org/screen-test-protect-2/frequently-asked-questions/covid-19-exposure-and-symptoms-who-do-i-call-if/>

- Course materials will be provided to you with an excused absence, and you will be given a reasonable amount of time to make up work.
- If you are withheld from campus by the Department of Health through Screen, Test, & Protect you are not permitted to use any on campus facilities. Students attempting to attend campus activities when withheld from campus will be referred to the Dean of Students Office.

Continue to regularly visit <https://coronavirus.ufhealth.org> and <https://coronavirus.ufl.edu> for up-to-date information about COVID-19 and vaccination.

Participation

Regular, consistent participation is necessary for success in this course. If you need to step away from an activity or assignment for a period of time, let the instructor know via email as soon as possible. If you are sick, or need to quarantine following exposure to someone who is sick, stay home.

Deadlines

In principle, all deadlines in this course are final. Exceptions and extensions can be made, if notice is given in advance via a professionally-worded email. The instructor reserves the right to accept or reject requests for extensions. If an assignment receives a failing grade, the student may request a reevaluation via a professionally-worded email. However, be aware that this may lead to a higher, lower, or same, grade.

Course Communication

Course materials and updates will be posted regularly to Canvas. Course-related questions should be communicated via Canvas inbox or email to Dr. Johnson (benjaminkjohnson@ufl.edu). I typically respond within a few hours. I also encourage you to make good use of open discussions on Canvas or Slack.

Technology Requirements

The students are required to have access to a laptop or computer with reliable Internet access. They will need the UF VPN (<http://www.uflib.ufl.edu/login/vpn.html>) to access some library resources off-campus, and to access the IRB website and training (even on-campus).

Students will need access to a word processing program and a database program (Excel or similar). UF provides access to virtual versions of these Office programs at UF Apps. You may be asked to access articles from scientific journals, via UF Libraries, which requires the use of the VPN when off-campus.

Additionally, students need to be able to install one piece of free software on their own computer, Jamovi stats.

Class Demeanor

Students are expected to behave in a manner that is respectful to the instructor and to fellow students. Opinions held by other students should be respected in group work and during discussion, and conversations should be constructive and on-topic. If you experience frustration or conflict with a fellow classmate, please notify the instructor and I can help.

Netiquette Communication Courtesy

All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. For more information, refer to the Netiquette Guide for Online Courses (<http://teach.ufl.edu/wp-content/uploads/2012/08/NetiquetteGuideforOnlineCourses.pdf>)

UF Policies

Honor Code

You are required to abide by the University of Florida Student Honor Code. Any violation of the academic integrity expected of you will result in a minimum academic sanction of a zero on the assignment. I take originality in writing and creative work very seriously, and expect you to fully understand what is considered plagiarism. For helpful information on original work, see:

<https://guides.uflib.ufl.edu/copyright/plagiarism>

<http://oaa.osu.edu/assets/files/documents/hownottoplagiarize.pdf>

<https://plagiarism.arts.cornell.edu/tutorial/index.cfm>

I am always available to proactively discuss any uncertainties or ambiguities before you submit an assignment. You may also use the free iThenticate service via UF to check your work in advance (<https://elearning.ufl.edu/supported-services/ithenticate/>).

Any alleged violations of the Student Honor Code will automatically result in a referral to Student Conduct and Conflict Resolution. Please review the Student Honor Code and Student Conduct Code at <http://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>

Accommodations

Students with disabilities requesting accommodations should first register with the UF Disability Resource Center (<https://disability.ufl.edu/about/contact-us/>) at (352) 392-8565 by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodations. Students with disabilities should follow this procedure as early as possible in the semester.

Online Course Evaluations

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their

Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Please note (adapted from <https://doi.org/10.1371/journal.pone.0216241>): Student evaluations of teaching play an important role in the review of faculty. Your opinions influence the review of instructors that takes place every year. Student evaluations of teaching are often influenced by students' unconscious and unintentional biases about the race and gender of the instructor. Women and instructors of color are systematically rated lower in their teaching evaluations than white men, even when there are no actual differences in the instruction or in what students have learned. As you fill out the course evaluation please keep this in mind and make an effort to resist stereotypes about professors. Focus on your opinions about the content of the course (the assignments, the textbook, the in-class material) and not unrelated matters (the instructor's appearance).
