

MMC 5458: Statistics for Analysts in Communication

Academic Term: Summer 2023

3 Credit Hours

Instructor

Name: Mark Allen

Email Address: mallen@cop.ufl.edu

Office Phone Number and Times: 202-658-3535 (Please only call-in emergency situations or if a call has been prearranged.)

Virtual Office Hours: By appointment only. Please email me to set up an appointment.

Course Description and Prerequisites

In this course, the students will learn to use common research statistical methods utilized within the communications and media industries. The overall goals of the course are for students to develop an understanding of statistical principles and concepts as well as develop the ability to perform statistical tests within various research contexts. The students will work on critically evaluating the statistical tests and results of empirical studies to assess whether the findings have relevant implications for individual research and/or industry projects.

Course Pre-Requisites / Co-Requisites: None

Course Expectations

This is a fully online course, and you must log into Canvas with your Gatorlink username and password to access the materials and assignments. The course is organized into modules with due dates. Unless otherwise specified, each module begins on Monday at 12:00 AM, ET, and ends on Sunday at 11:59 PM, ET.

Time Commitment

Expect to spend between 10 to 20 hours per week, per course, watching or attending lectures, reading, working on assignments and projects, and engaging in discussions.

Expectations for Writing Assignments: Writing Style

To meet the academic rigor and standards of a graduate program, all students must use the Publication Manual of the American Psychological Association (APA) 7th Edition style in their courses when appropriate for the assignment. The APA 7th Edition Manual has a plethora of guidelines that includes scholarly writing, publishing principles, elements and format for your papers, writing style and grammar, bias-free language guidelines, mechanics of style, in-text citing references, etc. For additional information on notable changes, see changes between APA 6th Edition and APA 7th Edition.

Attendance Policy

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies. [Click here to read the university attendance policies](#) for information on absences, religious holidays, illness, and the twelve-day rule. Excused absences must be consistent with university policies in the [Graduate Catalog](#) and require appropriate documentation.

Late Assignment Policy

Late assignments will not be accepted unless it is a [University excused absence](#) as stated in the attendance policies. **No late work will be accepted for final projects or work due in the final week of class due to the university grading deadlines.** If potential issues arise concerning submitting final work, students should contact their instructors before the assignment deadline.

1. Late Assignment Grade Reductions
 - a. 0-24 Hours Late: 10% reduction in grade.
 - b. Over 24 Hours (24 hours and 1 minute) to 7 Calendar Days Late: 20% reduction in grade.
 - c. After the 7th Calendar Day: Work will not be accepted.
2. Late Discussions will not be accepted.

Student Guidelines for Course Challenges

A student with questions regarding course content such as assignments, assessments, instructional materials, lectures, meetings, course objectives, course module objectives, or other areas of the course, please adhere to the following guidelines: first, *approach the faculty member who is teaching the course* to ask for clarifications regarding the course assignments, assessments, materials, lectures, meetings, etc. Use the instructor's contact information to request an appointment where you can address any concerns and/or questions. If after meeting with *the faculty member teaching the course* you are still not clear on the course assignments, assessments, materials, lectures, meetings, etc., then the next step would be to contact online advising (onlineadvising@jou.ufl.edu) for additional guidance.

Accessibility/Students with Disabilities Information

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the [Disability Resource Center](#). It is important for students to share their accommodation letters with their instructors and discuss their access needs, as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback professionally and respectfully is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens and can complete evaluations through the email, they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Course-Level Objectives

Upon successful completion of this course, students will be able to:

1. Explain statistical terms and concepts. (CO: 1)
2. Examine statistical tests for accuracy. (CO: 2)
3. Evaluate the statistical components of research articles. (CO: 3)
4. Use SPSS to perform statistical tests. (CO: 4)

(CO = Course-Level Objective)

Textbooks and Materials

Required Course Textbook(s)

Byrne, B.M. (2016). [*Structural equation modeling with AMOS: Basic concepts, applications, and programming, third edition*](#). Routledge. E-book available via UF Libraries page (VPN required).

Lane, D.M. (n.d.). [*Online Statistical education: A multimedia course of study*](#). Rice University.

Mertler, C. & Vannatta Reinhart, R. (2017). [*Advanced and multivariate statistical methods \(6th ed.\)*](#). Routledge. E-book available via UF Libraries page (VPN required).

Required Software: There is no required software to purchase for this course. Students will use the latest version of SPSS available in UF Apps.

Recommended Textbook(s)

This textbook is recommended in all CJC Online classes to support student expectations for writing style.

American Psychological Association. (2020). [*Publication manual of the American Psychological Association: The official guide to APA style \(7th ed.\)*](#).

- ISBN-13: 978-1433832161
- ISBN-10: 143383216X

University and Course Grading Policies

University Honor Code

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code specifies the number of behaviors that violate this code and the possible sanctions. [Click here to read the Conduct Code](#). If you have any questions or concerns, please consult with the instructor in this class.

Plagiarism

Plagiarism is unacceptable; especially, in academic communities. All academic work must be an original work of your own thought, research, or self-expression. Plagiarism includes, but is not limited to, prohibited collaboration, consultation, submission of academic work that has been purchased or obtained (see the [UF Policy: Student Conduct Violation](#)). In addition, self-plagiarism is also unacceptable. Self-plagiarism is defined as recycling or reusing one’s own specific words from previously submitted assignments or published texts. Remember that plagiarism is not acceptable in any of your work including all discussion board posts, journal entries, wikis, and other written and oral presentation assignments. It’s important to always cite your sources in your assignments.

Grading Criterion

Your grade will be calculated based on the following:

Assignments (70%)

Assignments can consist of any combination of the four following components:

1. Short answer questions based on the reading and lectures.
2. A short presentation (<10 minutes, recorded on Zoom) to present the statistical component of a published research paper (more detailed instructions to follow).
3. Short answer questions based on the statistical component of a published research paper.
4. Performing a statistical test in SPSS.

Short answer questions and SPSS outputs will be graded by points/percentages based on number of correct questions.

Quizzes (20%)

There will be two quizzes consisting of short answer questions based on all material covered in readings, lectures, and homework assignments. The quizzes will be available in Canvas for at least four days so that you can take the 2.5-hour quiz at a time that best suits your schedule. The quizzes will be open “everything” (open notes, open book, open lecture, etc.).

Final Presentation (10%)

You will formulate two of your own research questions and perform two different statistical analyses using the data in either of two SPSS sample datasets (telco or car sales) from among the following tests:

- Factorial ANOVA
- Repeated measures ANOVA
- ANCOVA
- Factorial ANCOVA
- MANOVA
- Factorial MANOVA
- MANCOVA
- Factorial MANCOVA
- Multiple Linear Regression
- Exploratory Factor Analysis (Not with the telco dataset.)
- Multiple Logistic Regression

You will record a 10–15-minute presentation (and turn in a PowerPoint presentation) that includes the following:

1. Brief background of your analysis.
2. Two appropriate research questions for main effects; if doing a factorial analysis, list the research question(s) for interactions as well.
3. The 5-step process for both analyses
4. Confirmation that the assumptions for doing the statistical tests are met.
5. The results (either relevant SPSS output tables or figures and tables created by you.)
6. Your interpretation of the results; this should include answers to all of the research questions.

You can arrange to meet with me (or email me) to ensure that you are using the appropriate statistical test for your research questions. You are free to record your presentation on any platform that you desire, as long as I can view it. Your presentation should include video as well as audio and is intended for a professional audience.

Assignments/Assessments	Weight (%)
-------------------------	------------

Course Orientation: These assignments are required; however, they do not count towards the final grade. <ul style="list-style-type: none"> • Student Introduction • Course Evaluation 	0%
9 Assignments	70%
2 Quizzes	20%
1 Final Presentation	10%
TOTAL	100%

Grade	Percentage
A	92.5-100%
A-	89.5-92.4%
B+	86.5-89.4%
B	82.5-86.4%
B-	79.5-82.4%
C+	76.5-79.4%
C	72.5-76.4%
C-	69.5-72.4%
D+	66.5-69.4%
D	62.5-66.4%
D-	59.5-62.4%
E	0 – 59.4%

The only passing grades for graduate students are A, A-, B+, B, B-, C+, and C. Letter grades of C-, D+, D, D- or E are not considered passing at the graduate level, although the grade points associated with these letter grades are included in grade point average calculations. See the [Graduate Catalog](#) and [UF graduate school grading policy](#) for more information.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see the [Notification to Students of FERPA Rights](#).

Technology Requirements

Software Use

All faculty, staff, and students at the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Software

- [Microsoft Office 365](#).

- [UF Apps](#) – access UF software applications from any device from any location, at any time.
- [Adobe Reader](#)
- [Zoom](#)

Technical Support

If you have technical difficulties with your course, please contact the [UF Computing Help Desk](#) either by filling out an [online request form](#) or calling 352-392-4357 (HELP).

If your technical difficulties cause you to miss a due date, you must report the problem to the Help Desk and then email your instructor. Include the ticket number that you are given from the Help Desk in an email to the instructor to explain the late assignment/quiz/test.

IT Support

For all Technical assistance questions please contact the UF Computing Help Desk.

Phone: 352-392-HELP (4357)

Email: helpdesk@ufl.edu

Communication Policies

Announcements

You are responsible for reading all announcements posted in the course each time you log in.

Email

You are responsible for reading all your course emails and responding promptly (within 24 hours).

Instructor Communications

Email Policy

Except for weekends, holidays, and University breaks, the instructor will typically respond to emails within 48 hours. For course-related questions please post in the Canvas FAQ discussion board. If you have questions of a personal nature, please email me directly.

Assignment Feedback Policy

I will provide feedback/grades on submitted assignments within two weeks of the due date. Some assignments may require a longer review period, which I will communicate to you if necessary.

Course Policies

Video Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or

appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under [UF Regulation 4.040 Student Honor Code and Student Conduct Code](#).

Privacy

If your course includes live synchronous meetings, the class sessions will all be recorded for students in the class to refer to and for enrolled students who cannot attend live. Students who participate with their camera engaged or utilized a profile image agree to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, keep your camera off and do not use a profile image. Likewise, students who unmute during class and participate agree to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. Please see UF's Information Technology [policies](#) for additional information.

Challenging Topics

In this course, we may cover subjects that may be sensitive and/or challenging. As in all our courses, we do this not to indoctrinate but to instruct, to prepare you to be the most effective and successful media professional or scholar you can be. We encourage you to understand all concepts presented in class, but we know that what you personally believe is your choice. If you want to discuss anything regarding this, don't hesitate to contact me directly.

Commitment to Diversity

The College of Journalism and Communications embraces diversity as a shared responsibility among faculty, staff, and students and strives for tangible expressions of this responsibility. We are committed to fostering a safe, welcoming, and inclusive environment for individuals of all races, genders, nationalities, religions, sexual orientations, identities, and abilities to express their culture and perspectives through the art and science of journalism and communication.

Academic and Student Resources

Academic Resources

- E-learning Technical Support: Contact the UF Computing Help Desk at 352-392-4357 (HELP) or via e-mail at helpdesk@ufl.edu.
- [Career Connection Center](#): Career assistance and counseling. Reitz Union, Phone: 352-392-1601.

- [Library Support](#): Various ways to receive assistance concerning using the libraries or finding resources. [UF Library Services for Distance Students](#)
[Ask a Librarian](#) – chat with librarians online.
CJC Librarian - [April Hines](#), Phone: 352-273-2728, Email: aprhone@uflib.ufl.edu.
- [Writing Studio](#): Provides one-on-one consultations and workshops tailored to specific classes (graduate and undergraduate). 302 Tigert Hall, Phone: 352-846-1138.

Health and Wellness

- *U Matter, We Care*: If you or someone you know is in distress, please contact umatter@ufl.edu, call 352-294-2273, or visit the website to refer or report a concern, and a team member will reach out to the student in distress.
- *Counseling and Wellness Center*: Visit the [Counseling and Wellness Center](#) website or call 352-392-1575 for information on crisis services as well as non-crisis services.
- Student Health Care Center: Call 352-392-1161 for 24/7 information to help you find the care you need or visit the [Student Health Care Center website](#).
- University Police Department: Visit the [UF Police Department](#) website or call 352-392-1111 (or 9-1-1 for emergencies).
- GatorWell Health Promotion Services: For prevention services focused on optimal wellbeing, including wellness Coaching for Academic Success, visit the [GatorWell website](#) or call 352-273-4450.

Student Fees and Service Entitlement

Student Fees

There are fees mandated by the state and one local fee that ALL students must pay per credit hour. Visit the [University Bursar](#) for up-to-date fee rates.

- Capital Improvement Trust Fund Fee
- Technology Fee
- Student Financial Aid Fee [not applicable for certificate programs]

Student services and entitlements

The student services that the distance student is entitled to are comparable to those of the resident student and should include the following:

- Eligibility for financial aid and financial aid advising [not applicable for certificate programs]
- Student complaints and concerns
- Student counseling and advising
- Student organizations
- Technology assistance

Course Schedule

Week Number	Topic and Assignments
1	Basic Statistical Concept's Part 1, Assignment #1
2	Basic Statistical Concept's Part 2, Assignment #2
3	Basic Statistical Concept's Part 3, T-tests and Chi-squared tests, Assignment #3
4	Linear regression and Introduction to multivariate statistics, Assignment #4
5	ANOVA & Factorial ANOVA, Quiz #1
6	ANCOVA & Factorial ANCOVA, Logistic regression, Assignment #5
7	SUMMER BREAK
8	MANOVA/MANCOVA & Factorial MANOVA/MANCOVA, Assignment #6
9	Multiple linear regression, Assignment #7
10	Path Analysis, Quiz #2
11	Introduction to Structural Equation Modeling (SEM), Assignment #8
12	Exploratory factor analysis & Confirmatory factor analysis, Assignment #9
13	Scale development, Final Presentation

The instructor reserves the right to adjust this syllabus, as necessary.
