2. Demonstrate skills of applying research/calculating tools. 30%
3. Class presence (5%) and participation (5%). 10%
4. Media Insight presentation. 10%

## Assignments

Quizzes (30%): understanding of concepts based on class slides

In each quiz, a short open-ended question will be asked related to the concepts that have been discussed in the previous lectures and you need to demonstrate or examine them to answer the question. The quiz is a short reflective exercise which to help us review your understanding of the concepts we cover in class, asking additional questions, sharing feedback with me. A word or PDF file will be uploaded to Canvas each week with important concepts that *may* appear on your quiz.

In-class Activities (30%): demonstrate skills of applying research/calculating tools and more

There will be various types of in-class activities, including discussion, collaboration on data collection and analysis, and Negotiation Challenge to help you build innovative thinking and collaborative skills. To receive the full points, you are expected to ask constructive questions, actively contribute to the teamwork (each team member receives the grade based on individual performance, which is assessed by self and teammates).

Media Insight Presentation (30%): demonstrate skills of applying media/audience data in practice

In this group exercise, you will first prepare a draft of a media brief (goal, target group, proper media) for your selected brand and product. Second, you will be acting in the role of media planner and promoter, preparing an event with a pop-up store in selected location to improve the awareness of the products. These two activities aim to familiarize you with the research and planning process as media planners and promoters and enhance your creativity, analytical thinking, collaboration, and presentation skills. You will receive feedback on your plans and presentations, which can be useful for your final media plan project.

**Final Team Project (20%):** demonstrate skills of applying media planning process in practice Each team needs to deliver a media plan report (50 points) **Wednesday April 24, 2024, at 11:59 pm** and give a 20-minute presentation (20 points) at the final week (Week 16). Team report needs to be delivered as fully formatted electronic documents, co-authored jointly by all team members. Requirements for the assignment is available on Canvas. Late delivery up to 24 hours = 50% of maximum points possible. More than 24 hours delay = 0 points.

#### Class Attendance and Participation (10%)

After that, we'll need to discuss how we might ensure that you master the course content you have missed. Any extra unexcused absences will result in a participation points deduction.
