### **Course summary**

This three-credit intermediate journalism course marries traditional local news reporting with the multimedia skills required of storytellers. For this class, multimedia means using more than one kind of storytelling tool for each assignment: text, images, audio, video, data, etc. You will learn to identify, pitch and produce a local or regional news story for an online audience. Primary outcomes are field assignments suitable for a public media station's digital news website.

Given the community-based story opportunities across north central Florida and beyond, this course will help prepare you for not only advanced journalism courses in the UF College of Journalism and Communications, but also an internship and/or a job before/after graduation. This is true if you want a career in a newsroom or if you're more interested in law school, nonprofit advocacy, government communications, book publishing, sales, influencing, etc.

## Course objectives

Students in this course will learn to:

1. Achieve greater clarity, consistency, accuracy and authority in news writing.
2. Identify and pitch a local news story on various topics of public interest.
3. Find news in the community using official and unofficial sources.
4. Gather facts and information via interviews, documents or online repositories.
5. Determine which storytelling tool best suits a story and maximize the opportunity.
6. Develop a “hire me” mindset that builds a portfolio of quality story outcomes.

## Grading

### Assignments (1,000 total points available)

#### Attendance/mental discipline (100 points)

- Attending each Monday lecture and assigned lab session is required. Lectures offer big-picture lessons, and labs serve as a space for individual feedback and collaboration with colleagues to shape story pitches. Note the compounding penalty described below; it applies each time you miss a lab or lecture session.
- A discussion board post introducing yourself is worth five points in Canvas.

#### Canvas quizzes (120 points) and AP style & mastery quiz (50 points)

- Expect 12 quizzes on the assigned readings, lecture and supplemental material offered in each module – as well as your AP style proficiency.
- A 50-minute, finals-style quiz tests grammar, spelling, punctuation and AP style. You get up to three tries to answer 50 questions. Highest score counts.

#### Field assignments (500 points – 100 for each field assignment)

- Each student will produce up to six assignments demonstrating their proficiency with the concepts taught in the course. All students must submit stories for the first and sixth field assignment deadlines and at least three of the four others. A student who files six acceptable field assignments will have their lowest grade dropped, at the lab instructor's discretion.
- By the end of the semester, your field assignment portfolio must include a mix of enterprise and daily deadline stories, an alternate story form, a story from one of our nearby news deserts and a mix of multimedia. Details about the field assignment portfolio are available in Canvas. Missing any of the above components can result in up to a 50-point deduction.
- You are urged to do a range of stories, ideally involving government, education, public safety, health, environment, business, the arts, technology, etc.
- Lab instructors judge each field assignment as a newsroom editor focused on accuracy, craftsmanship, effort, enterprise and abiding of course directives.
- You will have two opportunities to revise these field assignment components that prove to be subpar: headlines, story structure, sourcing and images.

#### Multimedia (200 points)

- You will produce at least four multimedia reporting components — an audio wrap, a video package, a data visualization and a social-first video — to accompany four of the six field assignments and not as standalone elements. Details for each, including rubrics and instructional materials, are available in Canvas.

#### Source development memo (25 points)

- The sourcing memo shall demonstrate a reflection of your growth in sourcing skills and offering future reporters the contacts that you found useful.

**Final grade calculations:** 930-1,000, A; 929-900, A-; 899-870, B+; 869-830, B; 829-800, B-; 799-770, C+; 769-730, C; 729-700, C-; 699-670, D+; 669-630, D; 629-600 D-; 599 and below, E.

An A indicates superior performance; B, highly competent, above-average work; C, average; D, below average; E, unsatisfactory. Use and manage your time efficiently. You will be rewarded for results, not just effort. Steady improvement will earn additional equity.

### Attendance, attention and academic integrity

Per the UF attendance policy, an absence is unexcused unless you provide the instructor notice in advance and documentation after the fact. Regardless of why you miss class, you must let the lecture or lab instructor know beforehand for the absence to be excused. This is a deadline profession oriented around being present. Late arrivals and early departures are noted. Missing more than 30 minutes of a class session counts as an absence. Chronic tardiness will also result in a point deduction. If you miss class, get notes from a classmate. In this and every course you take, please never ask the instructor if you “missed anything important.”

Multiple unexcused absences will double in penalty: Five points deducted for your first absence, 10 points for your second, 20 for your third, etc.

Laptops and mobile devices are not permitted in lecture. This course represents an excellent chance to learn to take better notes with pen and paper — a task required of reporters on deadline. Separately, your instructors have found that students in previous semesters have excelled the most in this course when they take notes without their laptop — providing them an additional opportunity to focus on course material and not the distractions our devices offer. Giving the lecture period your undivided attention will help to better prepare you to take on the quizzes, field assignments and multimedia that this course requires.

### iClicker

This course uses iClicker's geolocation feature to collect attendance in lecture. This means that you must be physically present in class to avoid incurring an unexcused absence penalty. You must grant the iClicker app permission to share your location the first time you use the feature, and you can then choose to turn this permission off until your next class session. If you have connection issues during class, write your name and UFID on a piece of paper and hand the paper to a TA at the end of the class period. We will not accept any submissions outside of the class period or via email. Find more information in [iClicker's student privacy policy](#).

### Academic integrity

Academic dishonesty is not tolerated in this course. That includes – but is not limited to – using any work done by another person and submitting it for a class assignment; repurposing work for/from another class; copying and pasting text published by another person/organization without sufficient attribution; illicit fabrication/use of artificial intelligence without instructor permission and guidance; using images someone else produced without explicit permission from the creator. Attribution is not the same as permission. Most images found online are not free to use. [Find more information in the UF Student Honor Code](#).

## **AP style need-to-know**

Given the AP style-related quizzes this term and your need for written clarity, consistency, accuracy and authority in field assignments, you must know (in no particular order): capitalization, numerals, dates, decades, years, Roman and Arabic numerals, percentages, a.m., p.m., times, ages, boy, girl, infant, youth, hyphens, directions and regions, highway designations, composition titles, magazine names, newspaper names, titles, military titles, courtesy titles, legislative titles, religious titles, academic, abbreviations and acronyms, second reference, social media, state names, abbreviation of state names with cities, dateline cities, distances, percents, dimensions, foot, cents, dollars, millions, fractions and addresses.

## **WUFT News**

This course is aligned with WUFT News. It is not a campus station; the college's professional news outlet serves over a dozen counties across north central Florida. So for this class, think and act like a professional journalist. You should identify yourself to sources as a reporter working toward publication of a story for WUFT News. Treat this course like a job or internship. If you do, you will get better clips, a better grade, and you will better prepare yourself for a job. JOU 3346L will also prepare you for working in a professional workplace by navigating office politics, communicating your ideas, garnering attention and interacting with management.

WUFT publishing considerations include: relevancy or urgency (is it front-page news?); the quality of sourcing; depth of interviewing; attribution; the power of quotes; flow (is it logical?); adherence to AP style, grammar, spelling and punctuation; and gumption and ingenuity.

## **Slack and Airtable**

JOU 3446L students shall communicate with their lab instructors/editors and/or teaching assistants primarily via Slack. Students will pitch story ideas via [wuft.org/pitch](http://wuft.org/pitch) no later than the deadline set by your lab instructor. Pitches submitted through this form automatically populate into Slack and WUFT's assignment management tool, Airtable. Feedback for your story idea, progress and submission will come from your lab instructor, teaching assistant and/or a WUFT editor via Slack. Failure to understand this process could result in grade penalties, unpublished work and/or needless frustration.

## **Submitting for publication**

All text stories and associated story assets considered ready for publishing shall be submitted to the instructor, who will then process it according to WUFT's editing process. Students shall not move stories to a WUFT editor for publishing unless expressly directed to do so by the instructor. Your submission should include all elements described in field assignment and multimedia rubrics available in Canvas.

Remember: All field assignments are submitted twice: first in Slack, then via Canvas. Your submission to Canvas is for your grade. Failure to submit to that platform by the deadline will result in a letter grade reduction.

## **Deadlines**

Late assignments will be penalized unless an emergency is documented. A field assignment submitted late and without advance permission will result in at least a letter grade deduction. This is particularly true if it's a daily deadline assignment. If illness prevents you from completing an assignment on time, advance notice and written documentation are required. If advance notice is not possible because of an emergency, written documentation will be mandated ASAP. Generally speaking, we will function as if working in a professional workplace. In the real world, when you don't show up for work (on time) or don't do your work (on time), you risk losing your job. In other words, students who miss class or deadlines will suffer consequences.

## **Factual errors**

Factual errors are embarrassing and intolerable. They range from an inaccurate street address or time element to a misspelled name. Misquotes also qualify, as does just plain sloppiness.

If a student corrects a fact error before the instructor finishes editing, there shall not be a penalty. If an editor finds one or more fact errors, up to 25 points could be deducted. If a source or reader reveals a fact error, up to 50 points could be lost. A series of egregious fact errors in a single submission can result in an overall score of zero. Grievous sins such as source fabrication, plagiarism or neglecting to inform a source that they could appear in a published story will amount to even harsher penalties at the instructors' discretion.

## **Conflict of interest**

Students in this course shall not be used as sources for your field assignments. The same applies to relatives, roommates, friends (from campus or back home), sorority sisters, fraternity brothers, or members of any other co-curricular or extracurricular organizations to which you belong. Interviewing UF faculty, staff, or employees may be allowed provided they and the student do not have a prior relationship – and only with prior approval from the instructor.

Sources must be interviewed either in person or on the phone. Email interviews are discouraged and permitted only with the instructor's permission in advance of the particular interview. Sometimes a source will want you to let him read a story before it is submitted or published. Do not do so. It may be appropriate – sometimes, depending on the story, even ideal – to call the source back to confirm facts or context, or even to read the person's direct or indirect quotes to him or her. Be wary of allowing someone else to determine or undermine your reporting or story approach for nefarious reasons.

## **Artificial intelligence**

Students are prohibited from using AI tools to generate, write or substantially edit field assignments. Stories must be your original work. Using AI to generate content is considered plagiarism and subject to the university's academic integrity policies. Students may use AI tools for research, to find sources or to verify facts and data. Reporters may use AI to find story ideas or sources but must confirm the accuracy of names, places, organizations and events before pitching the story. If in doubt about any use of AI for coursework, please consult your instructor. For more information, [review WUFT's editorial policy on its use of artificial intelligence.](#)

## Course schedule

This schedule represents our day-one plan and objectives. Plans may change based on breaking news or learning opportunities. Such changes shall be communicated via Canvas or lecture. A list of weekly assignments is also available in each Canvas module.

### Module 0: Orientation | Jan. 12 to 18

- We will introduce the course objectives, expectations and frequently asked questions about how to achieve both; explore storytelling through various media; and highlight past student successes while encouraging you to share your goals and background.
- Listen:
  - ["Often undervalued, student journalists play a vital role in our communities"](#) from Connecticut Public Radio, May 16, 2025.

### Module 1: Intermediate news reporting | Jan. 19 to 25

- **No lecture or lab meetings this week due to UF holiday. Students are encouraged to schedule one-on-one meetings with their instructor or TA to begin reporting.**
- You will see best practices for pitching story ideas, covering beats, meetings and speeches, nationalizing local stories, reporting breaking news on deadline, producing advances and emphasizing the importance of serving the public over those in power.
- Readings
  - "Inside Reporting" by Tim Harrower:
    - Chapter 4, "Reporting Basics," pages 67-89
    - Chapter 5, "Covering the News," pages 93-113

    - Chapter 3, pages 47-67 (PDF available in Canvas.)
- **AP Style and GSP Mastery Quiz due by 6 p.m. on April 22**
- **Source development memo due by 6 p.m. on April 22**
- **Optional: Revisions on field assignments 4 to 6 are due by 6 p.m. on April 22**

## Technical support

Call 352-392-HELP (4357) for help resolving computer-related and other technical issues related to accessing or using Canvas, connectivity (wireless, VPN), email or software configuration, and browser and GatorLink authentication issues. A security reminder: Don’t share your UF password with anyone.

UF Computing Help Desk: <https://helpdesk.ufl.edu> • Walk-In Support: HUB 132

## Counseling center

Personal or health issues such as depression, anxiety, stress, career uncertainty and or relationships can interfere with your ability to function as a student. UF’s Counseling and Wellness Center (CWC) offers support for students in need. CWC is located at 3190 Radio Road and open each weekday from 8 to 5. UF Counseling and Wellness Center: <https://counseling.ufl.edu/>

## **Students with disabilities**

Reasonable accommodations will be made for students with disabilities who have registered with the UF Dean of Students Office. This office will provide documentation to the student, who must then provide it to the instructor when requesting accommodations.

UF Disability Resource Center: <https://disability.ufl.edu>

## **Course evaluations**

Your instructor will exit the classroom for a portion of our final class together to allow you time to provide honest feedback on the course, its instruction and how to improve it in future semesters. Feedback can be offered at <https://gatorevals.aa.ufl.edu>.
