Objectives:

- Demonstrate and understanding of advertising concepts and practices
- Explain the role and impact of advertising in America and the world
- Introduce opportunities available to students in careers in advertising and related fields

Description:

Advertising is a pervasive force in modern society. Each year advertisers spend upwards of a thousand dollars for each person living in the U.S. What is the purpose of such expenditures, and what are the effects? Those are some of the issues this course will deal with.

We also examine advertising from the inside, from the perspective of the advertiser (the client) and the specialists who create advertising, the ad agency. You will learn about the different roles within each of these types of organizations. You will also find out about how they do their job, what people inside the business are like, and what role you might someday play should you choose an advertising career.
