Course Description

The purpose of the Public Relations Principles course is to provide a general overview of the practices of public relations and to provide exposure to a number of selected topics in the field of public relations such as history, law, ethics, and the international nature of public relations. This will serve as an introductory course for pursuing the major. The course will provide a comprehensive understanding of public relations' role in organizations and society; how public relations has been developed as a discipline; and the contemporary roles of public relations in organizations and society. Basic public relations principles and theories will be examined in addition to applied perspectives. Students will discuss public relations issues and trends as well as international and ethical considerations involved in the practice of public relations. Students will be encouraged to think more broadly considering the globalized communication function of public relations and having their own ideas about public relations through the discussion of misunderstandings and misperceptions about the field of public relations.

Course Prerequisites

There are no prerequisites for this course; this course is open to all.

Course Communication and Engagement

You have a variety of ways to communicate with Dr. Kim and her TA but all office communication from her and her TA will be conveyed via announcements and materials on our Sakai course site. All assignments, lectures, due dates, grades, and announcements will be posted on Sakai. You are responsible for being aware of the site's contents on a daily basis (i.e. if you have computer problems, you will need to make arrangements to log on elsewhere to keep up).

Please be aware of the following communication policies:

- Please review our syllabus, module intros, announcements, grading rubrics, due dates etc. before posting a question. Most of your questions are answered there. If you've looked and it's not there or you need further clarification, then post your general questions on the Course Questions discussion board (the type of thing that you would raise your hand in class to ask). This is the fastest way to get your questions answered. Please proofread your posts to ensure they are clear and free of surface errors. Feel free to respond to each other if you know the answer.
- For personal or grade questions, please email our TA and Dr. Kim (from within e-learning in Sakai) or make an appointment by e-mail to speak with our TA or Dr. Kim.
- If you need to meet in person, please make an appointment via email (from within e-learning in Sakai).
- Sakai is our official email tool. You should email Dr. Kim or her TA through Sakai.

Academic Honesty

IMPORTANT Please be aware: During this course students are permitted to use their book and notes during quizzes. However, students are NOT allowed to cooperate with other students in order to complete quizzes.

If several students habitually begin the test at the same time, or if other digital evidence provided by Sakai suggests that students have attempted to cheat by cooperating then students suspected of dishonesty may be offered a chance to retake an in-person proctored exam without the benefit of notes or textbooks in order to verify their knowledge of the material. Cheating is a violation of the **honor code and may result in disciplinary action up to and including expulsion from the University.**
