**This will differ for doctoral students. Please see me for specifics.

Assignments will be distributed at least one week in advance of their announced due date (syllabus dates are subject to change). The participation grade includes discussion and other informed contributions to classroom learning that are indicative of class preparation. This includes your submitted comment sheets to your peers on the assigned readings.
Comment Sheets: Each of you will be responsible for two weeks’ worth of comments to be submitted to class peers via email by Thursday at 7:00pm. For your assigned date, please type your insights, thoughts, questions, arguments, and/or comments on the assigned readings for the next day (3-page minimum, double-spaced). Email it to each of us so that we can read it in preparation for class discussion the next day. A sign-up sheet will be circulated for these dates.

Academic Honesty
Familiarize yourself with the University of Florida’s academic honesty policy. They can be found at http://www.dso.ufl.edu/sccr/honorcodes/honorcode.php. You should not be here unless you are prepared to do your own original work. If I discover that you have been academically dishonest in this class in any way, you will fail (for the semester).

You are responsible for knowing the definition of plagiarism and various kinds of academic dishonesty. Ignorance, i.e. “I didn’t realize that was plagiarism” is not an acceptable response, and will not excuse you from academic dishonesty violations, if discovered. While you are responsible for reading and understanding UF’s policy in its entirety, examples of academic dishonesty include:

- Using phrases or quotes from another source without proper attribution or quotation marks
  - For purposes of this class, five or more words (verbatim) from a source without proper attribution or quotation marks will be considered plagiarism.
  - Paraphrasing without proper attribution
- “Forgetting” to source material you use (same as above, intentional or not)
- Passing off others’ ideas as your own
- Turning in the same assignment or paper for two courses, i.e. “dual submission.” (While this might be tolerated in other classrooms, it will not be tolerated here.)
- Stealing and/or copying other students’ work, whether on a test or assignment
- Bribery
- Fabrication of material

Attendance Policy
Graduate-level seminars tend to be interactive, so much of what you will learn occurs during classroom discussion, debate, and exchange. Your absence takes away from your peers’ seminar experience. You will be graded on your level of participation and contributions to class discussion, and attendance is part of this.
