Description of Course

This course is designed to provide a thorough understanding and overview of the principles of scriptwriting, and to learn to apply these principles through practical exercises in various programs: commercials, sponsored and corporate videos, television and film documentaries, fictional works and adaptations. Another major objective is to help develop the students’ critical faculties, enabling them to better examine and evaluate the scripts of others, as well as their own.

The course will be comprised of lectures, exercises, screenings, workshops, analyses, and discussions.
