Assignments Summary

You will have regular assignments as a part of your final grade.

Each week you will read the assigned materials, view online lectures, demonstrate your understanding of class materials and objectives by completing a reactions post to the weekly lecture, and discuss a critical issue related to the materials you studied. Additionally, you will enroll in HootSuite University to gain knowledge and experience using various social media channels.

You will be required to turn in one essay during the semester. This essay should be at least 1500 words in length and must comply with APA standards. You are also expected to attach any relevant background information to the assignment. This paper is due on Thursday of Week 10 by 11pm EST. It should be submitted through the Sakai shell under the "Assignments" tab.

You will prepare a Social Media Marketing and Branding Plan for a brand you select as a semester long final project. You will email Professor Hughes for approval of the company you have chosen for this plan by Thursday of Week 6 at 11pm EST and submit your plan to him by Thursday of Week 12 at 11pm EST as a Word document attachment through the Sakai shell under the "Assignments" tab.

Homework

In addition to your readings during the semester, you will have two kinds of homework.

First, you should post a thoughtful response to a key topic question that will be due weekly and respond to at least one post from your fellow students. **These should be placed in the "Discussion" tab of the Sakai course shell.** (See the *Discussion* section later in this syllabus for more information.)

Second, there will be weekly lectures posted to Sakai. These weekly lectures will cover class material for that week. These lectures will vary in length but **will include questions posed** to the class about the week's subject. It is your responsibility to watch each lecture and provide a written reaction. **These should be placed in the "Assignments" tab of your Sakai shell.**

These in-lecture questions will be clearly noted during the lecture. Your answers should be a minimum of 100 words.

Since this is an asynchronous class it is possible to watch these lectures at any time, but you will find it easier to watch in conjunction with the weekly readings as they will build on each other throughout the semester. These reaction posts are due by 11pm EST Thursday of the assigned week.

Rubric for grading the weekly Response posts:

10 points	Complete response and posted before weekly deadline. Reaction meets word count minimum and provides student reaction to the lecture, not simply a summary of the presentation. All questions posed during the lecture are answered.
9 points	Complete response and posted before weekly deadline. Reaction does not meet word count minimum and provides student reaction to the lecture, not simply a summary of the presentation. All questions posed during the lecture are answered.
7.5 points	Complete response and posted before weekly deadline. Reaction does not meet word count minimum and does not provide student reaction to the lecture, but is simply a summary of the presentation. All questions posed during the lecture are answered.
5.0 points	Complete response and posted before weekly deadline. Reaction does not meet word count minimum and does not provide student reaction to the lecture, but is simply a summary of the presentation. Questions posed during the lecture are not answered.
0 points	No reaction post made.

There is no homework due in week 12.

HootSuite University

As part of the class, you are enrolled in HootSuite University at no cost to you. You will complete weekly modules in HU, which will, upon your successful completion of the modules, result in a HootSuite certification. On September 1, you will receive an email at your UFL.EDU email address with access information for the and directions for setting up your HU account. Please send Katie an email confirming you have set your HU account up. HootSuite U work will begin for our class during Week 2.

HootSuite U will provide a parallel learning experience to our class, giving you a view of Social Media Marketing and brand impact from a leading provider of social media services.

By the completion of HootSuite U course, you will be able to:

- Understand basic social media etiquette

- Create a social media strategy
- Publish social media updates and engage with a community

IMPORTANT—upon completion of the last module during Week 11 you will receive a HootSuite U certification. Please attach your certificate as a pdf in the Sakai shell under the Assignments tab by 11pm EST Thursday of Week 11 to receive your credit for this area of our course.

Discussion

Discussion is an integral part of our online course. You will be expected to read the assigned chapter(s) and accompanying readings as well as watching assigned videos (all shared in the syllabus under each week's section) and actively participate in weekly discussions through the Sakai e-learning site. **(Under the "Discussions" tab.)**

You will be expected to demonstrate that you are thinking about the topic at hand by asking questions, offering your own opinions and share justifications for those opinions, participating in class debate, posting comments and questions to the e-learning site and keeping your eyes and ears open for current events that may relate to class discussions. Please be respectful of the contributions of others and help create a class environment that is welcoming and inclusive.

For each week of the semester (except for Week 12) you will need to provide a thoughtful analysis of a topic or question listed later in the syllabus in the Weekly Assignments section. Each week you will also post responses to at least one of your classmate's initial posts. These assignments are located in the Discussions tab inside the Sakai shell. Your initial post should average 250 words; the initial reply should average 200 words.

Your initial response posts are due on Thursday by 11pm EST, and your comments/discussion responses on Saturday by 11pm EST. You should complete the readings before you write your initial post. Late submissions will be penalized.

You will be expected to use references in your initial posts (and in your responses) and to create a meaningful discussion with your classmates. Please follow the same guidelines when writing discussion posts throughout the entire semester.

Please keep these guidelines in mind as you create these posts:

1) Your writing should be thoughtful, reflective, and focused. You should also attempt to be persuasive, by which I mean you should try to convince others, especially others who disagree with you, that you have a valid and credible perspective. You may find the following piece helpful as a guide:

<http://opinionator.blogs.nytimes.com/2013/04/25/the-shadow-lobbyist/>

2) **Your initial discussion posts should average 250 words.** You are strongly encouraged to document any facts you bring to bear in making your arguments. In general, when you provide factual information, it should be referenced. Be sure to use only your own ideas and writing. If you are unsure about what plagiarism is, read this:

<http://web.uflib.ufl.edu/msl/07b/studentplagiarism.html>

Ignorance of plagiarism will not excuse a grade of zero on any assignment where it is found.

3) **Your initial reply should average 200 words.**

Personal attacks or disrespect towards others is inappropriate and will cost you points on the assignment. Your goal should be to help the author of the post you are commenting on see another perspective.

Here is an example of a response to the post in the link in point 1 that does a good job of accomplishing this:

The average American, thanks to a substantial educational and social deficit, simply doesn't understand politics or public policy. The interesting question, then, is how does the political class govern in the name of The People when The People are missing in action? For many decades, the political class maintained the self-delusion of running a democracy by creating their own echo chamber--issues and ideas would echo among elites in D.C. or other capitals of the country until enough steam would build up behind a policy that it seemed like there was a consensus on the issue. As a member of the political elite, if you heard the same story from multiple quarters, you could perhaps convince yourself that what you were hearing reflected the true interests of the public, even if that public was rarely involved in such surges of elite opinion. It was perhaps inevitable that as the technology and capacity to micro-target small portions of the real public have advanced that political lobbyists would eventually realize that they could insert themselves into the political elite echo chamber by manufacturing a ground-swell of 'public opinion' by whipping up opinions on particular policies by enlisting some ideological or ignorant fraction of the public. The real question is whether the political class will eventually tire of the absurdity of this situation and actually enlist the public in meaningful deliberation of issues, though this would mean a loss of control.

Here is another:

Back on July 12, 2002, during a Bill Moyers "Now" interview (transcript here:http://www.pbs.org/now/transcript/transcript_lewis.html) with Chuck Lewis of the Center for Public Integrity, I heard that in 1968 there were a mere 62 registered lobbyists in D.C. - but that this figure had risen to 20,000 by the date of that program.

Three years later, there was a June 22, 2005 Washington Essay article, "The Road To Riches Is Called K Street" (still posted online and easily found with a search of that headline), which told how :

"The number of registered lobbyists in Washington has more than doubled since 2000 to more than 34,750," that hiring was booming, and that fees and retainers had risen substantially.

Yet a Ross Douthat column from September 22, 2012, "Washington Versus America" - an intriguing commentary which noted that in 2011, seven of the ten most affluent counties in the U.S. were in the D.C. area, stated that:

"For Mitt Romney and the Republican Party, what's happened in Washington these last 10 years should be a natural part of the case against Obamanomics" - seemingly implying that a surge in influence- buying in D.C. was the fault of the president, and not the Washington Essay-noted boom of the Bush years.

Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at <http://www.dso.ufl.edu/students.php>.

Preamble: In adopting this Honor Code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the University community. Students who enroll at the University commit to holding themselves and their peers to the high standard of honor required by the Honor Code. Any individual who becomes aware of a violation of the Honor Code is bound by honor to take corrective action. A student-run Honor Court and faculty support are crucial to the success of the Honor Code. The quality of a University of Florida education is dependent upon the community acceptance and enforcement of the Honor Code.

The Honor Code: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."

On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied:

"On my honor, I have neither given nor received unauthorized aid in doing this assignment."
