Doctoral Students: Please check this box if you want the Graduate School to review and accept up to 30 credits from previous *non-UF master's degrees* toward doctoral degree requirements. All courses to be transferred must be graduate-level, letter-graded with a grade of B or better and must be demonstrated to relate directly to the degree being sought. It is for the student and the supervisory committee chair to determine which of those accepted credits can be used on the doctoral degree plan. Credits transferred from other universities are applied toward the degree requirements, but grades earned are not computed in the student's grade point average.

Students who received their Master's at UF in the College of JM/COM will not be required to submit a transfer of credits form.

Master's Students: Only graduate-level (5000-7999) work with a grade of B or better, is eligible for transfer of credit. A maximum of 9 transfer credits are allowed from institutions approved by UF. Credits transferred from other universities are applied toward the degree requirements, but grades earned are not computed in the student's grade point average.
