11:00 AM: Strategic Plan and Program Reviews: Linda Hon

Linda Hon updated the progress on the college strategic plan: Linda Hon said that the goals are approved and the time framing to finalize the college strategic plan is to come up with measurable objectives and timelines by the end of spring semester. Linda Hon encouraged each department to come up with its own objectives and specific strategies, emphasizing the importance of bridging the strategic plan and program review. Linda Hon will get those program review questions out early to get the faculty input for the program review.

11:30 Teaching Evaluation: Norm Lewis

Two recommendations were made from the Curriculum Committee:

1. Regarding the new online teaching evaluation system, instructors announce a date on which evaluations will be conducted and reserve a portion of class time on that date for the evaluations to be done to encourage bringing portable devices to class. Change the current policy to accommodate this recommendation

The faculty concurred the importance of encouraging students about the importance of teaching evaluations. Some questions were raised about the skewedness of online evaluation. Some faculty members shared their experiences about the lowest response rate.

A motion was made to move this from an information item to an action item by Spiro Kiousis. Passed unanimously.
2. The university level 10 item- scales are to be used continuously in the college.

The recommendation was passed unanimously.

Information for further discussion: The process of who should see and who should have access to those evaluations. The senate chair asked the faculty to provide feedback to the teaching committee.

12:15: Process for faculty input to shared governance

The senate chair asked what processes should be implemented: Various ideas were shared such as posting minutes, reporting back to their departments. One faculty member advocated an annual report summarizing what has happened and what we should think of for next year. Since semester to semester issues change, it would be helpful to see what’s going on and value shared governance. The senate chair asked any one who would be interested in conducting semester survey to contact the senate ask the senate representatives to bring this issue to their departments for feedback.
