WUFT Radio Reading Service

www.wuft.org/rrs

Supervisor: Rob Harder

Email: rharder@wruf.com

The WUFT-FM Radio Reading Service broadcasts several shows a week for listeners who are blind or visually impaired in the North Central Florida area, helping them to keep in touch with their communities and the world. All of our shows are based on reading from different sources - there is no writing involved. Students look through different publications and sources for articles and materials, read it on the air, and then discuss what they read. The Radio Reading Service is also an opportunity for students with little or NO experience to get their first shot behind a microphone, on air during a LIVE broadcast while at the same time learning some minor radio production. Most of the shows only take up two hours of the students' time per week. Students are required to register for credit for this experience. A supervisor signature is not required on the registration form.

GHQ Student Radio

<http://gwhatsthis.com/>

Supervisors: Rob Harder and Justin Clapp

Email: jtyler@wruf.com

Experience radio in a whole new way. You will have the unique opportunity to get hands-on, in-depth exposure to engaging your audience through an over-the-air signal, social media and mobile apps, content creation, and community outreach. Your creativity and initiative in this project will have a positive and lasting impact, not only in our college and on campus, but also in the global media industry. If you are an innovative thinker, hungry to learn, and eager to be mentored by industry leaders; you will fit right in. Students are required to register for credit or this experience. Attend the open house on April 10 6PM-7:30PM to get your registration form signed.

WUFT-FM Programming Department

Supervisor: Glenn Richards

Email: grichards@wuft.org

WUFT-FM/HD1 (89.1) is the local 100,000-watt National Public Radio (NPR) affiliate for North Central Florida. It also features programs from American Public Media (APM) and Public Radio International (PRI) as well as locally produced programming. WJUF-FM/HD1 (90.1) is a 20,000-watt full-time repeater station simulcasting WUFT programming to Citrus, Hernando, and Sumter counties. WUFT-HD2 (also on 102.7 FM) is primarily a classical music station that also features some syndicated jazz programming.

Students participating in WUFT's Programming Department will learn a variety of skills while gaining experience participating with a public radio station. Students will learn how programming for public radio differs from commercial radio.

A variety of opportunities are available including: assisting with local production of NPR's premiere news magazines, Morning Edition (M-F, 6-10AM) and All Things Considered (M-F, 4-6PM); screening calls and board operation for the local talk show, Animal Airwaves Live (Fridays, 1-2PM); researching and compiling press releases for public service announcements (PSAs) and website community calendar; learning how to produce station programming including the digital editing of audio files for programs, promotional announcements, PSAs, and underwriting; assisting with the maintenance of station music databases and music scheduling; assisting during the membership fund drives; and more.

A commitment of approximately 2 to 3 hours a week is expected. A familiarity with non-commercial public radio (NPR) is welcome, but not required. Spots are limited, and students are selected based on resume, level of interest, and previous experience. Students are required to register for credit for this experience.

WUFT-FM Associate Producer Experience

Supervisors: Forrest Smith or Ryan Vasquez

1-2 credits

Students will be responsible for helping create content for Morning or Afternoon Drivetime on WUFT-FM. Content will air during the local cut-ins during NPR's Morning Edition or All Things Considered. This experience involves writing stories, recording interviews, editing sound and assisting the main anchor/producer. At times it could also involve going into the field to cover breaking news and produce social media content. Students will be required to attend the training session that is also given to RTV3303 students. This experience is only available for Summer C. Students are required to register for credit for this experience.

WUFT-FM Live Segment Producer

Supervisors: Forrest Smith or Ryan Vasquez

1-2 credits

Creating live local content is one way multimedia journalists tell stories. This experience on WUFT-FM will involve identifying compelling local issues and setting up live interviews with the stakeholders to talk about those issues. Topics will vary, and interviews can be conducted over the phone or live in the studio. The actual interview may be conducted by either the student producer, or the on-air anchor. This experience by nature will foster more community engagement. Student will be required to attend the training session given for RTV3303 students. This experience is only available for Summer C. Students are required to register for credit for this experience.

SPORTS TV/PRODUCTION EXPERIENCES

WRUF ESPN Radio/Digital/Social Experience

www.wruf.com

Supervisor: Steve Russell and Eric Esterline

Email: srussell@wruf.com or eesterline@jou.ufl.edu

ESPN Gainesville 98.1 FM is the flagship station for The Florida Gators. Students get the opportunity to provide on-air talent in sports updates, contribute online via the station's website, and cover press conferences, media opportunities, and sporting events. Students should have a PASSION for sports as well as a large amount of SPORTS KNOWLEDGE. RTV3593 (Multimedia Sports Reporting), RTV2100 and/or MMC2100 are strongly recommended prior to participating in this experience. Freshman and students with minimal or no experience will be subject to a sports knowledge test. New students will be placed on a waitlist prior to admittance into this experience and will be admitted based on their sports knowledge, prior experience and order of applications received. The day and time for this experience is to be scheduled with the Sports Director. Students are required to register for credit for this experience.

GatorVision/SEC Network

Supervisor: Dennis Black

Email: DennisB@gators.ufl.edu

GatorVision provides "in house" sports coverage of the Florida Gators for the University Athletic Association (UAA). The unique and special opportunity allows students interested in sports broadcasting and sports production to get HANDS ON experience IN THE FIELD shooting, gripping, and working in the production trucks and/or production suites during LIVE Florida athletic events. As students learn and excel, other sports opportunities may be given to those who wish to participate in sports broadcasting and want to learn the "behind the scenes" aspect of the profession. Spots are limited and students are selected based on sports knowledge, previous experience and career goals. Students are required to register for credit for this experience.

TV/PRODUCTION EXPERIENCES

WUFT- TV News Production

Supervisor: Ken Pemberton

Email: kpemberton@wuft.org

The Division of Multimedia Properties offers three television-related student experiences:

BASIC5 Course:

BASIC 5 is an introduction to television production. BASIC 5 provides students with an opportunity to immerse themselves in the fast-paced environment of television news production. It is an intentional departure from the traditional lecture setting, as students will be learning in an actual working multimedia operation. They will have the opportunity to learn various television production positions, which will prepare them for on-air broadcasts. BASIC 5 will be offered Summer B on Wednesdays 12:50-2:20PM. Students are required to register for credit for this experience. A supervisor signature is not required on the registration form.

WUFT-TV Production Team:

This experience involves television production of the WUFT-TV News First at Five weekday newscast. This 30-minute show is broadcast live to 19 counties in North Central Florida, and is produced and directed almost entirely by University of Florida students. Most students who successfully complete BASIC 5 join the news production team at an entry-level position on the newscast, thus putting recently-learned skills to work quickly. Students are required to register for credit for this experience.

WUFT-TV Live Shot Team:

Students who participate in this experience will be responsible for shooting all live shots both on and off campus during their scheduled shift. If there are no live shots that day, students will assist with other newsroom duties. Students are required to work one day per week and must have availability from 2:30 pm to 6:30 pm on that day for the entire semester. Training will be provided, but it is recommended that students take Electronic Field Production prior to participating. Video shooting and editing experience are a plus. It is also strongly recommended that you have your own vehicle. Students are required to register for credit for this experience.

WEATHER EXPERIENCES

WRUF-TV Weather

www.wruf.com/weather

Supervisor: Jeff Huffman

Email: jhuffman@wruf.com

Students interested in joining the UF Weather Team should have a passion for meteorology, like to talk about the weather or help people plan around it. UF Weather offers a student opportunity that is real-world and “top-market” before students even graduate. Interested students should have a desire to tell a good story across multiple platforms including television, radio, and the digital products of the college. The skills necessary for a career in Broadcast Meteorology are unique and span multiple areas of study, ranging from communication and telecommunications to atmospheric science and geography.

Jeff Huffman conducts workshops each semester, which are advertised via email through the college list serve. In these workshops, more detailed information is given and Jeff talks to each student interested to see if the UF Weather Team is the right fit. Students then audition on a semester basis, and once selected to participate, are required to register for credit for this experience. Attend the open house in April, date TBD.
