RTV 4905, Individual Projects in Media, is a course designed to provide students with the opportunity to undertake areas of study or to do a project not normally done in regularly scheduled MPMT courses. You will work with a professor on an individual basis to accomplish a project or area of study commensurate with the credit hours requested (i.e., students who receive more credit will carry out a larger, more ambitious project).

NATURE OF PROJECT / AREA OF STUDY:

Approximate number of hours of work per week: _____

All RTV4905 requests must be accompanied by a syllabus with the following information:

- Course objectives and/or goals
- A weekly schedule of topics and assignments
- Methods by which students will be evaluated and their grade determined
- A list of all required and recommended textbooks, if any

Individual Projects are expected to be completed within the semester of registration. A grade of "I" (incomplete) will be given only in unusual circumstances where failure to complete the project was beyond the student's control. Incomplete projects will be graded by the appropriate deadline reflecting the student's amount and quality of work.

I have read the above and understand all that is required in doing an individual project.
